Dear Parents,

Due to the difficult circumstances, and as a result of shutting the school temporarily against the global-scale coronavirus, we have prepared activities for the English lesson that you can practice while spending time at home with our students. Covering vocabulary studies, scientific learning, analytical thinking, drama, art, story, songs and videos; We aim to give the works to create original story that improves small muscle skills with the help of our parents. Below you can find the instructions for each working group.

The given words are repeated and the inside of the round is applied by applying finger paint, rolling the play dough or by making one of the tearing-sticking activities. On the next page, the children sort the pictures from larger to smaller.

Scientific Learning; The life cycle of the plant is explained to the children on the working paper, then the worksheet with the children is repeated by repeating the words. The story of "The Tiny Seed" in the videos section is watched in the list given in the attachment related to the subject and then the song of Farmer Plants the Seeds is played.

With the arrival of spring, as an activity with your child, you can plant any seed you want in a flowerpot or you can have a grass man activity.

Required materials: crayons, tulle socks, seeds, colored cardboards to decorate, scissors, glue

While watching the "very hungry caterpillar" story in the videos mentioned in the story section, then work on matching the food that our caterpillar ate on the worksheets.

With the activity of colors, paint ice creams and flowers in color.

As an art activity, touch on the subject of seasons by painting the tree trunks with fingerprints according to the seasonal colours, "How is the weather?" support this work with the song.

Required materials; watercolour or finger paint

We do appreciate your cooperation, and we thank you for your support.
