## Dear Parents,

We have activities related to vegetables and fruits in our fourth booklet. We designed some activities, which can be turned into a game, and you just need to cut them out. Our students will experience learning by having fun by matching colors and numbers, memory card game, puzzle and grouping objects. There are also some worksheets other than these. Our students will have the opportunity to repeat what they have learned in this way.

Games are explained below.

Thank you for your support!

### Matching Colors Peg Game

Select a peg, look at the vegetables-fruits and color and try and peg it to the matching colour. If your child gets it right, leave the peg on the color sample card.

### Matching Numbers

Select a peg, look at the vegetables-fruits and count and try and peg it to the matching number. If your child gets it right, leave the peg on the number sample card.

### Memory Card Game

Mix up the cards. lay them in rows, face down. Turn over any two cards. If the two cards match, keep them. If they don't match, turn them back over. Remember what was on each card and where it was. Watch and remember during the other player's turn. The game is over when all the cards have been matched.

### Puzzle

Cut 3-piece puzzle and reassemble according to numbers

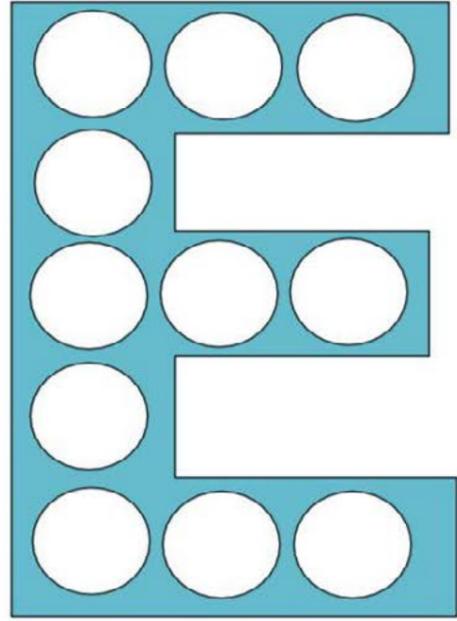

### Grouping Card Game

Cut all the vegetables on the card and then group the same vegetables

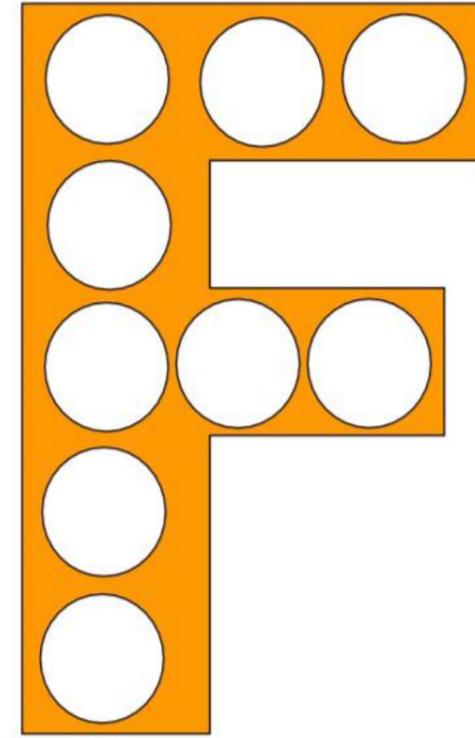

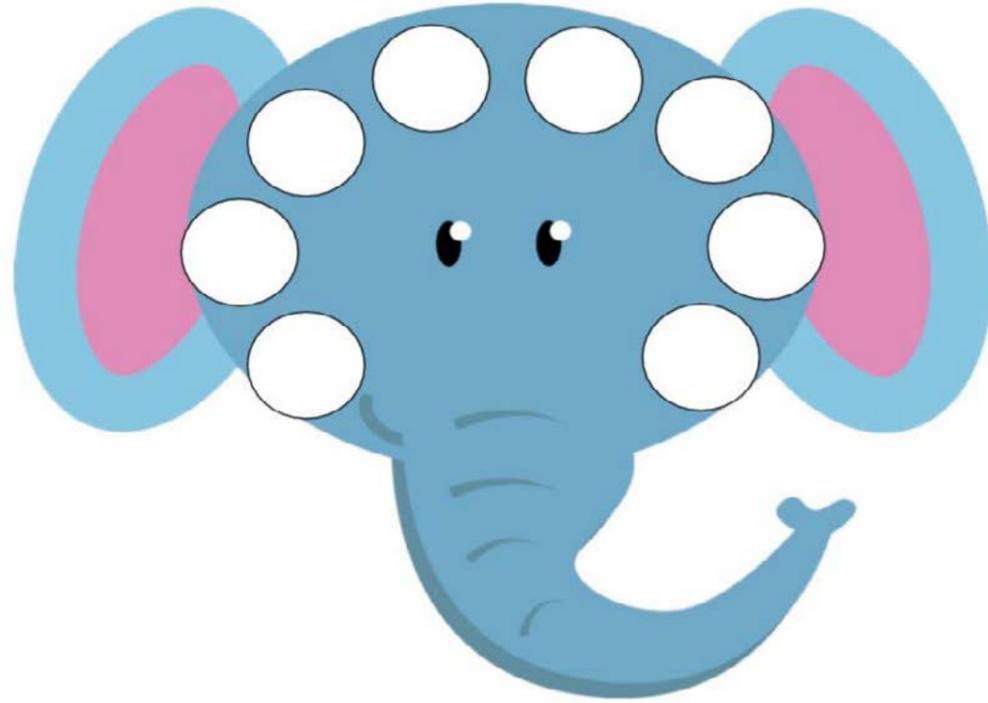

## Do – A – Dot

Fill in the circles however he/she wishes. Here are just a few ideas:

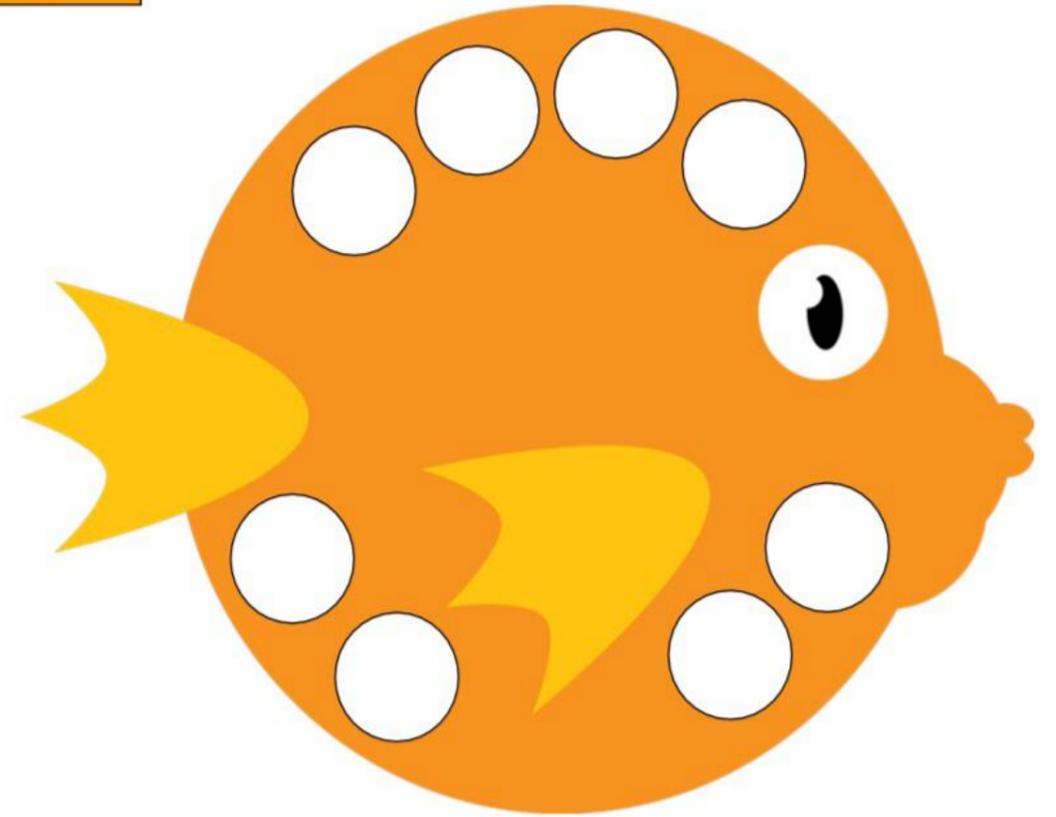

round office stickers, round magnets, Do-a-Dot markers, round cereal or another small snack, pom-poms hot glued to magnets .

is for  
elephant

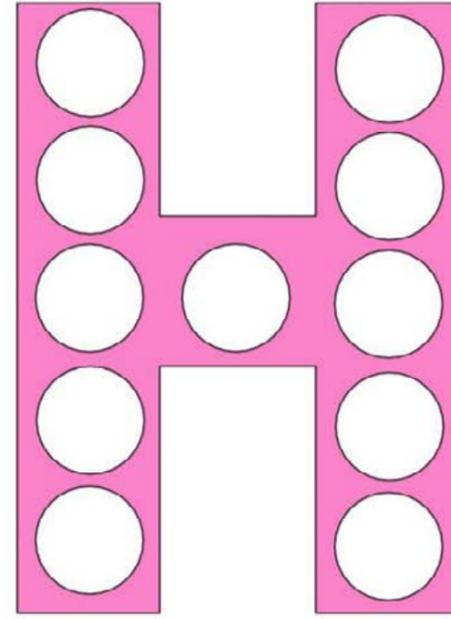

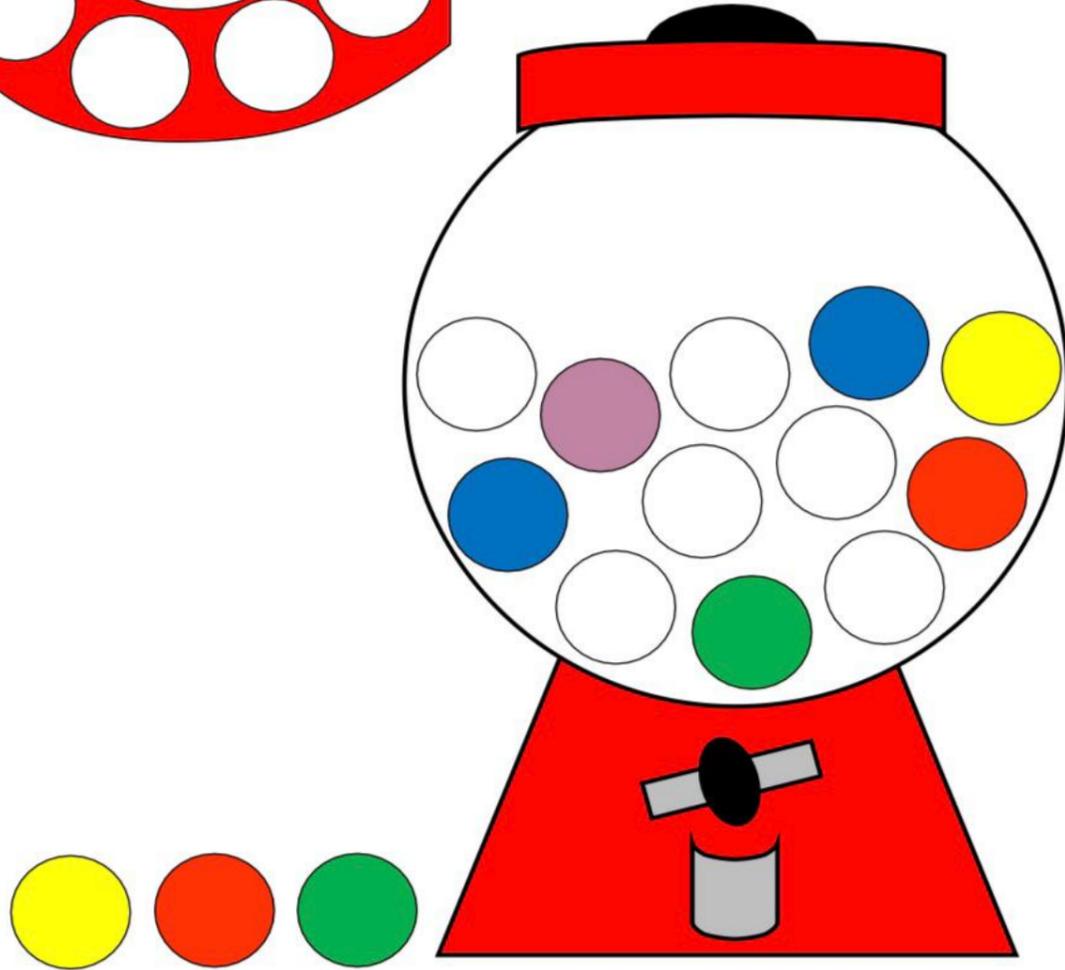

is for  
fish

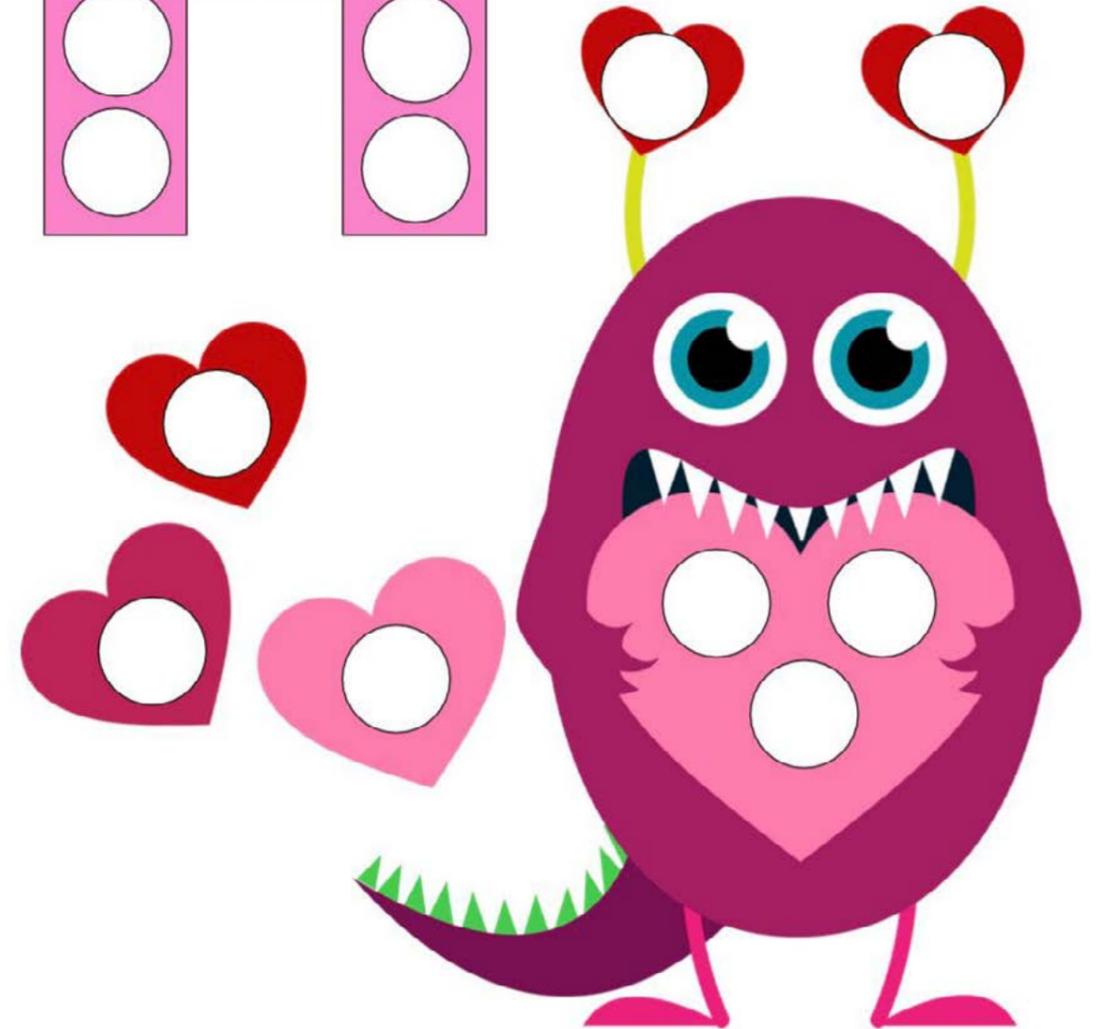

is for  
gumballs

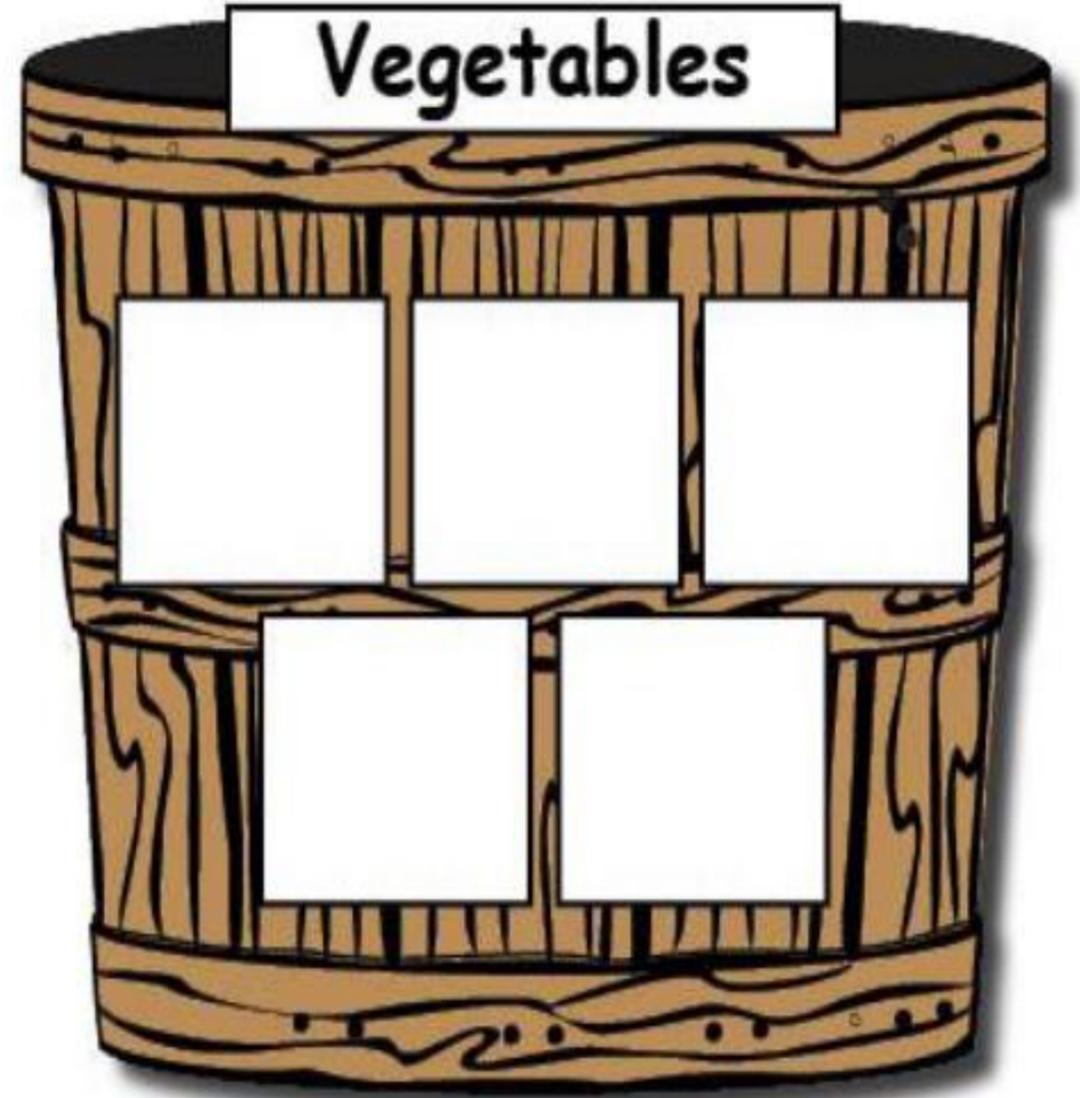

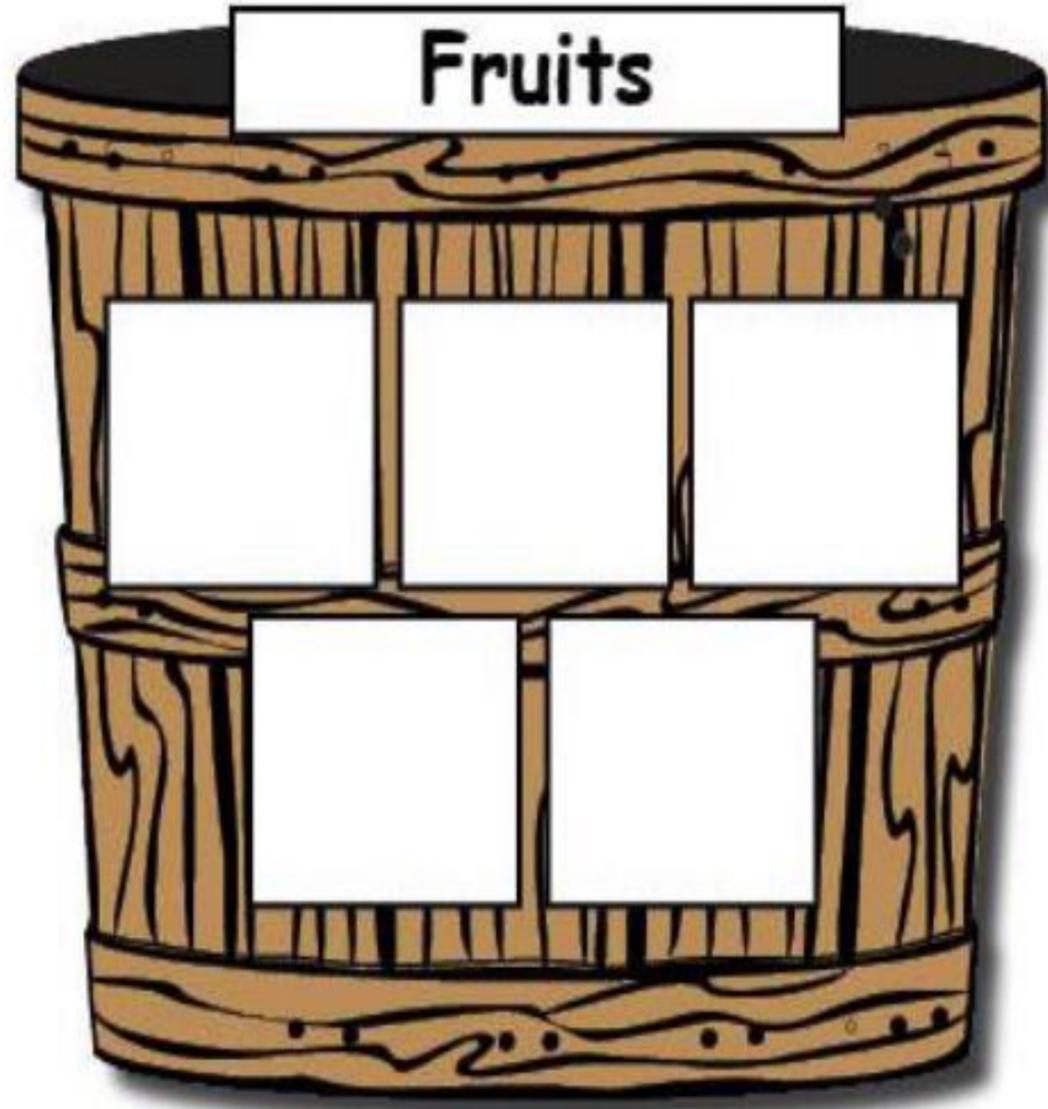

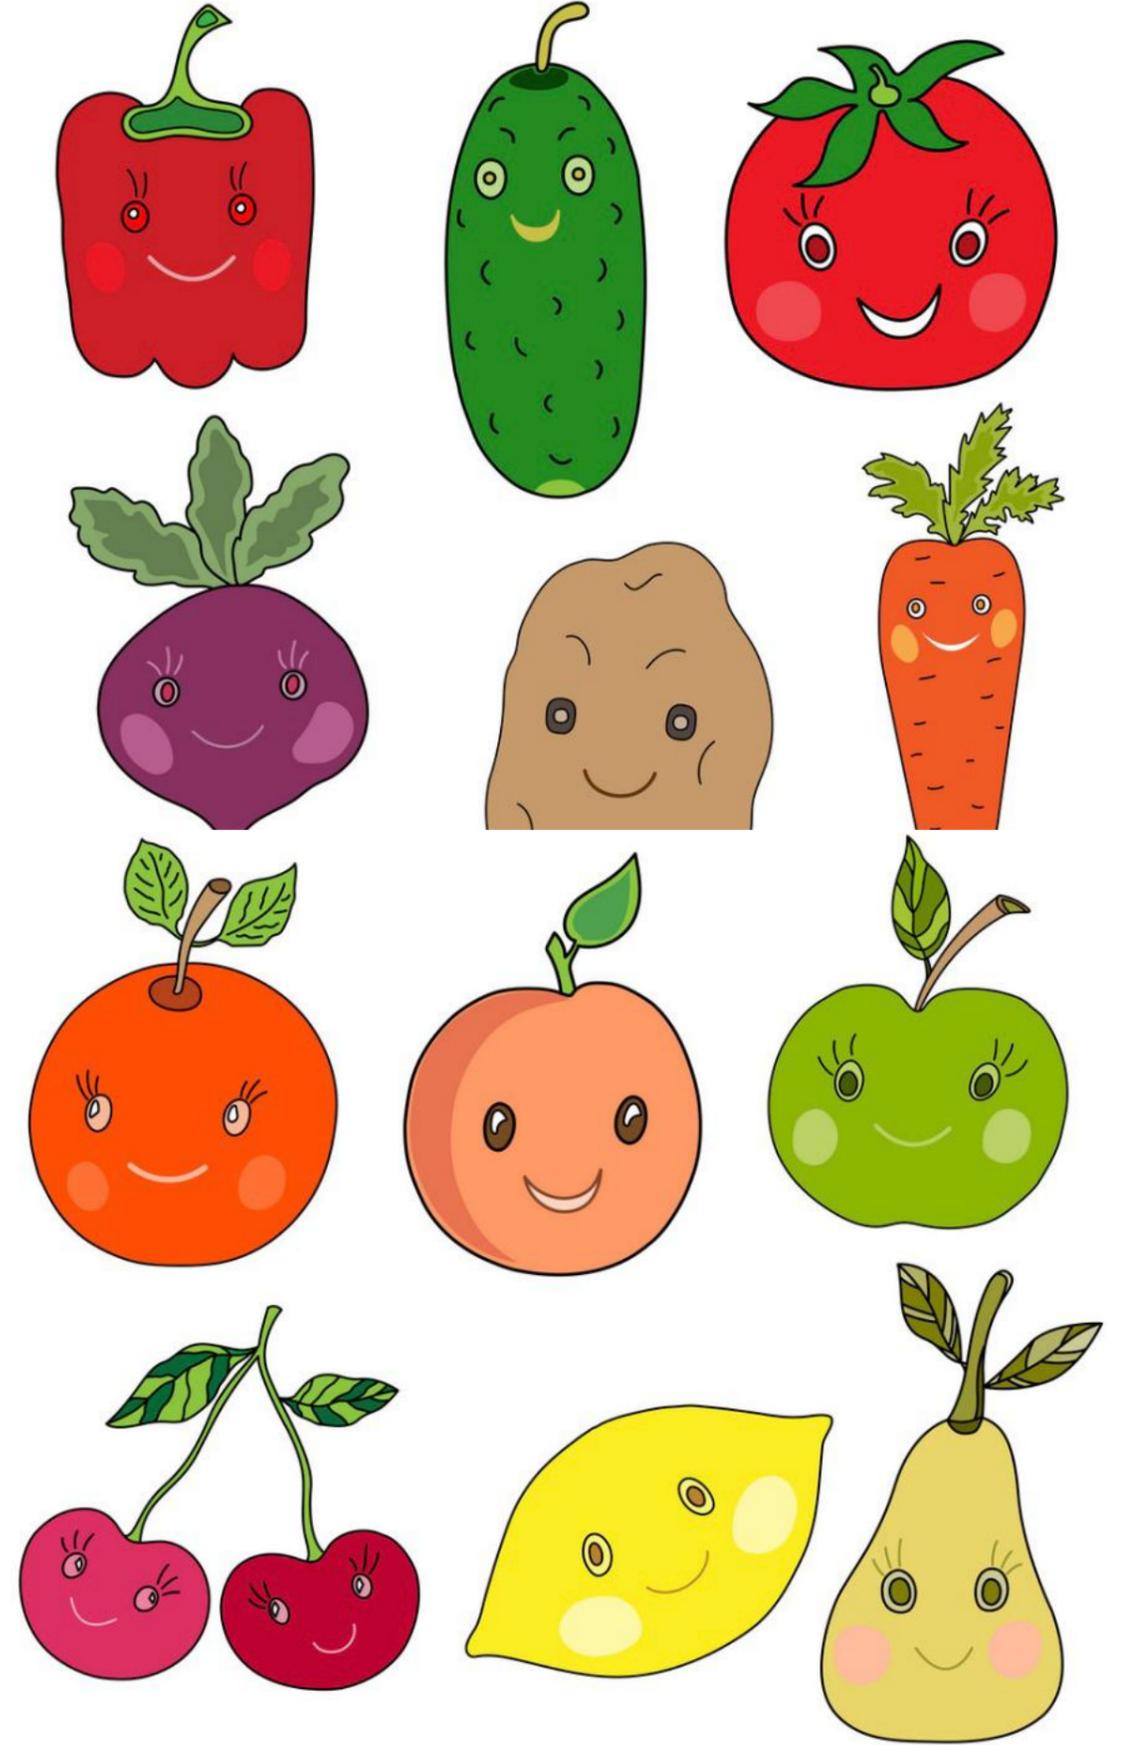

is for  
hearts

Let's go to the Farmer's market

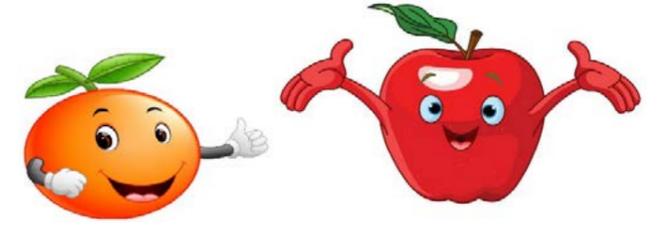

Cut out the fruits and vegetables and put them in the correct basket.

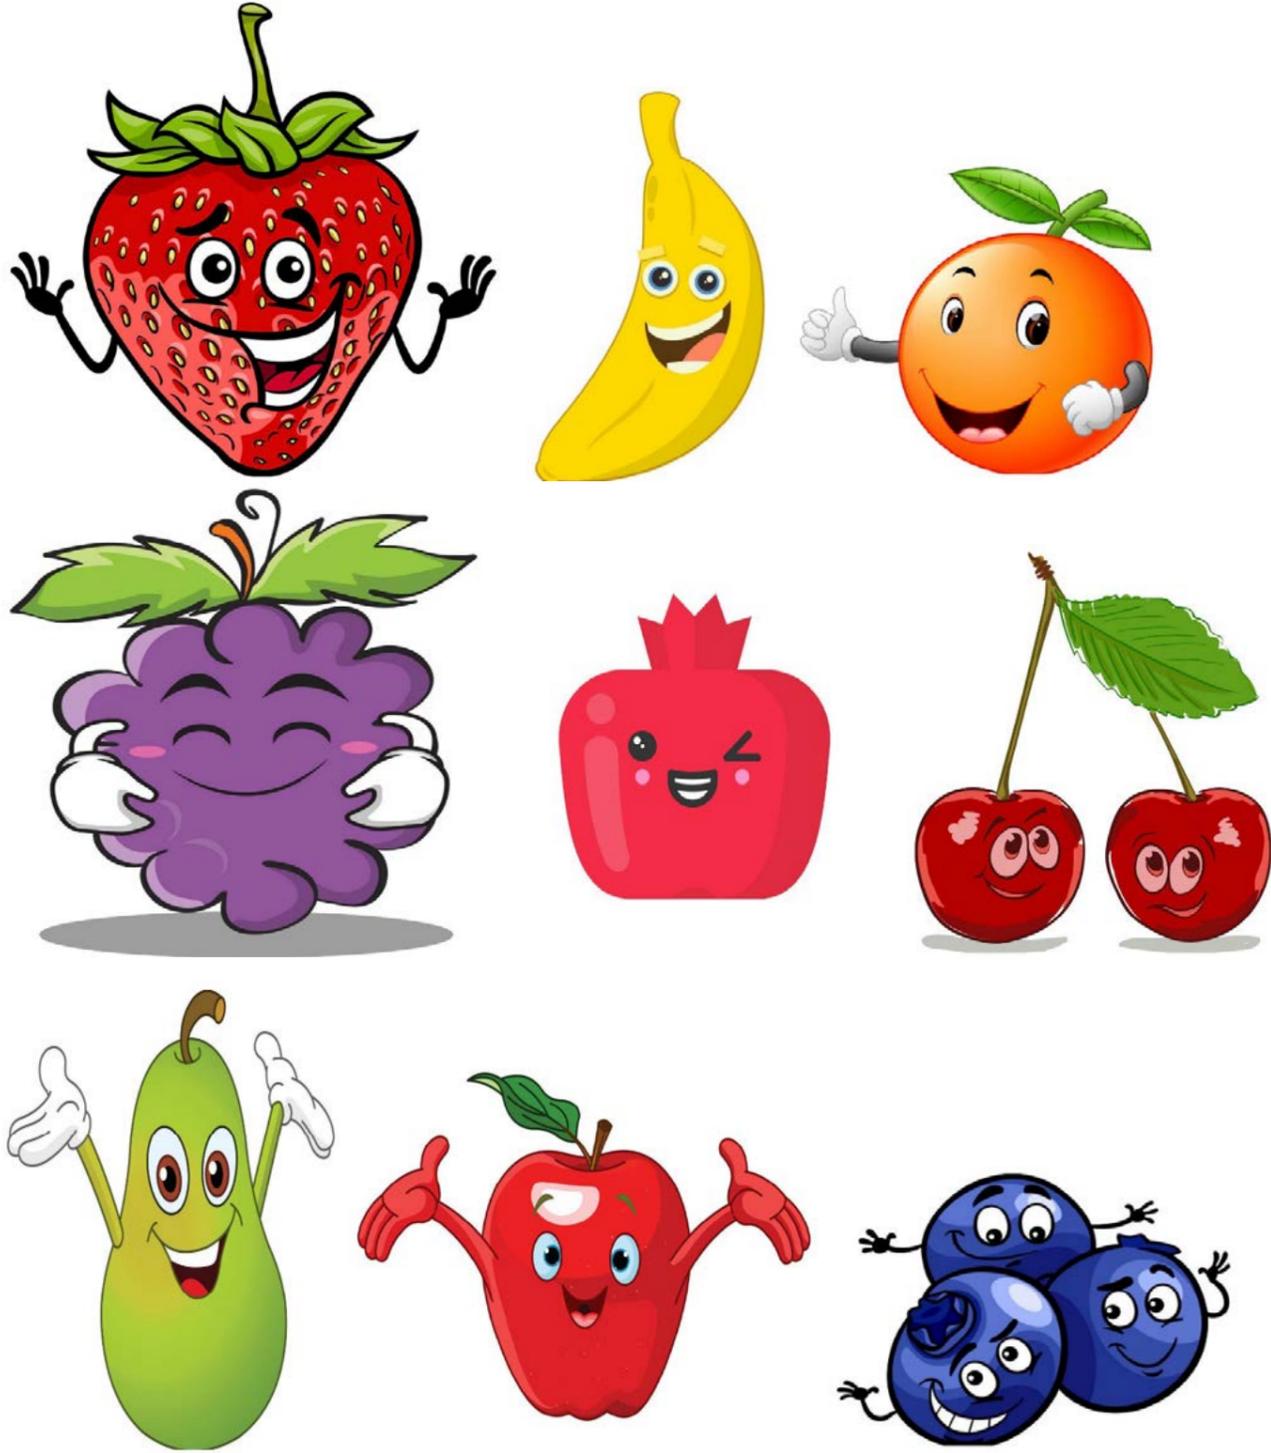

## Let's Count

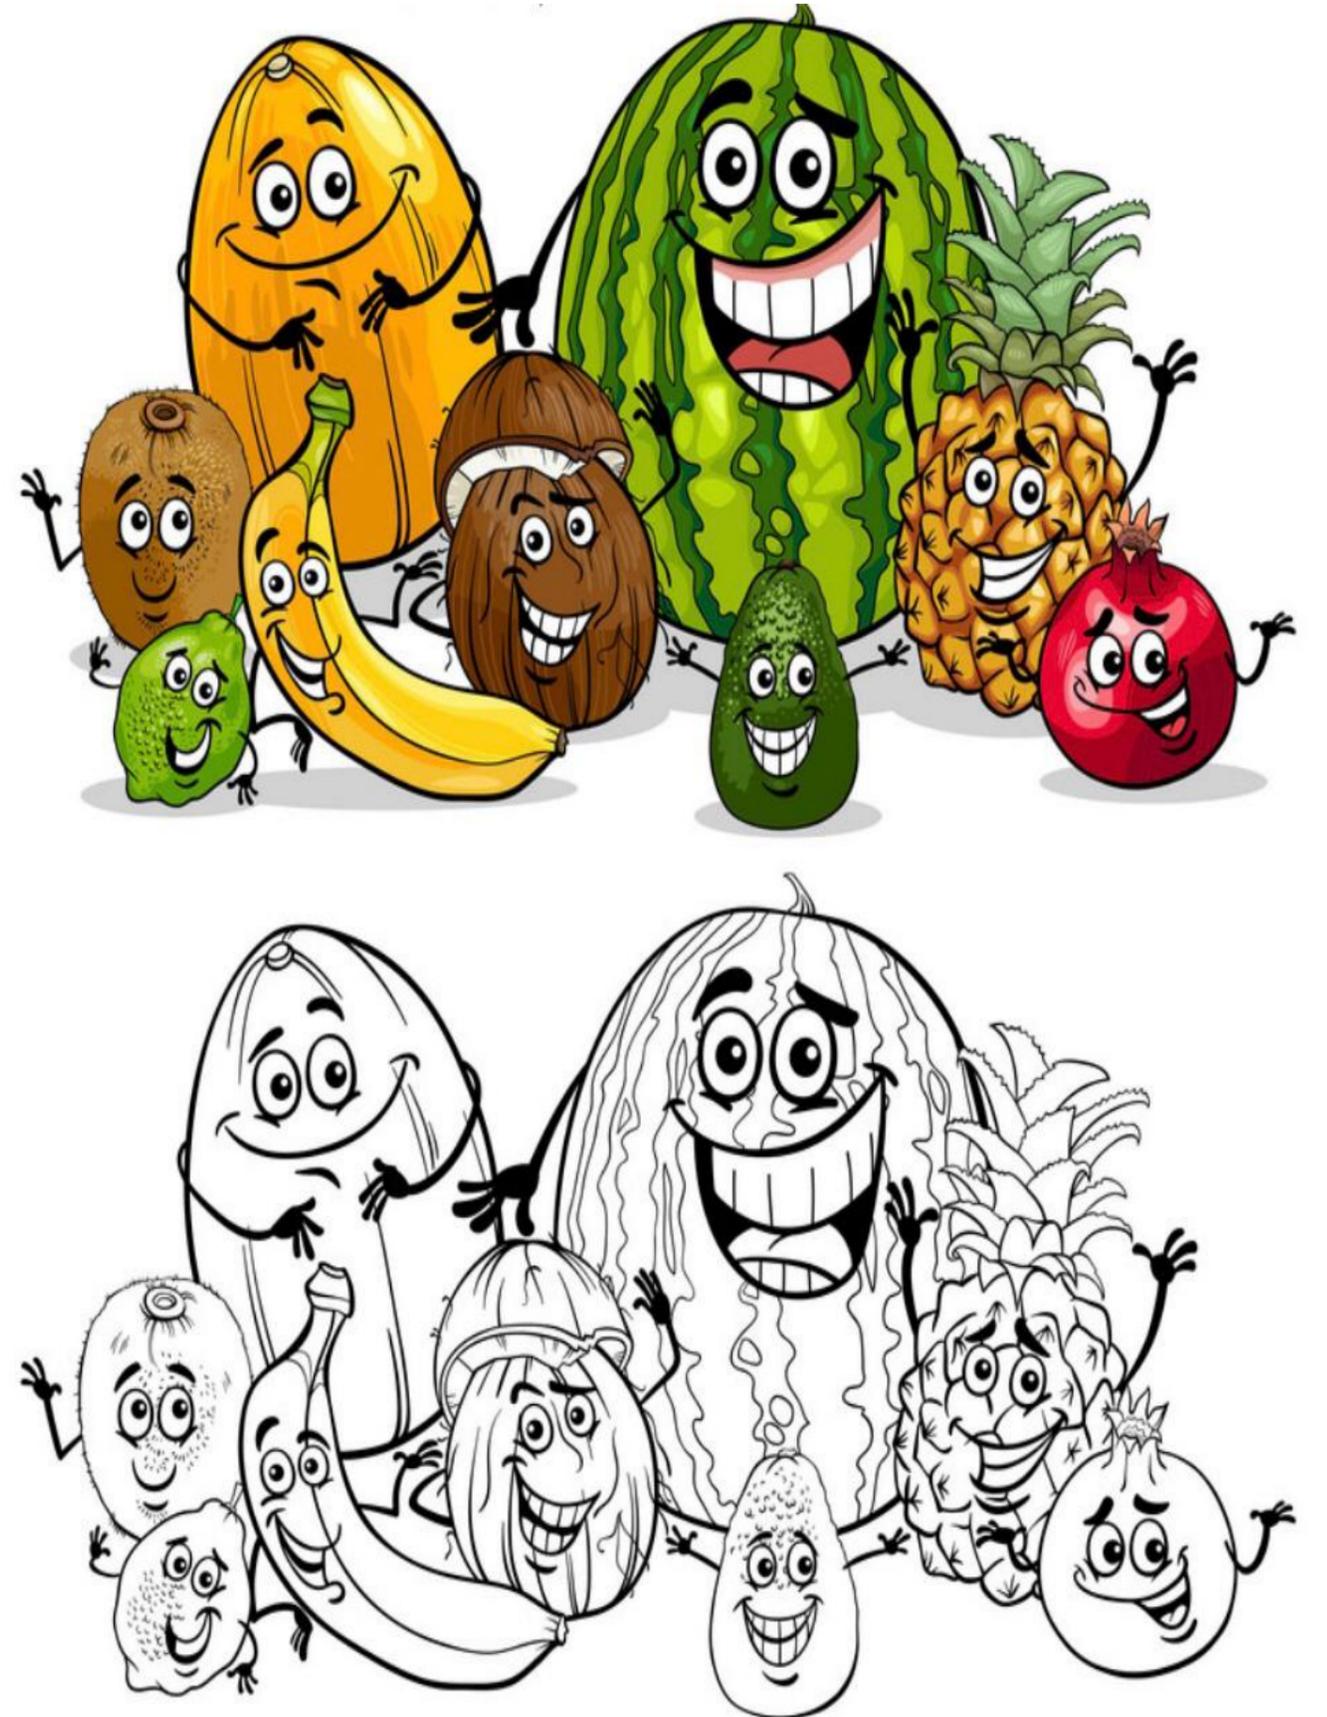

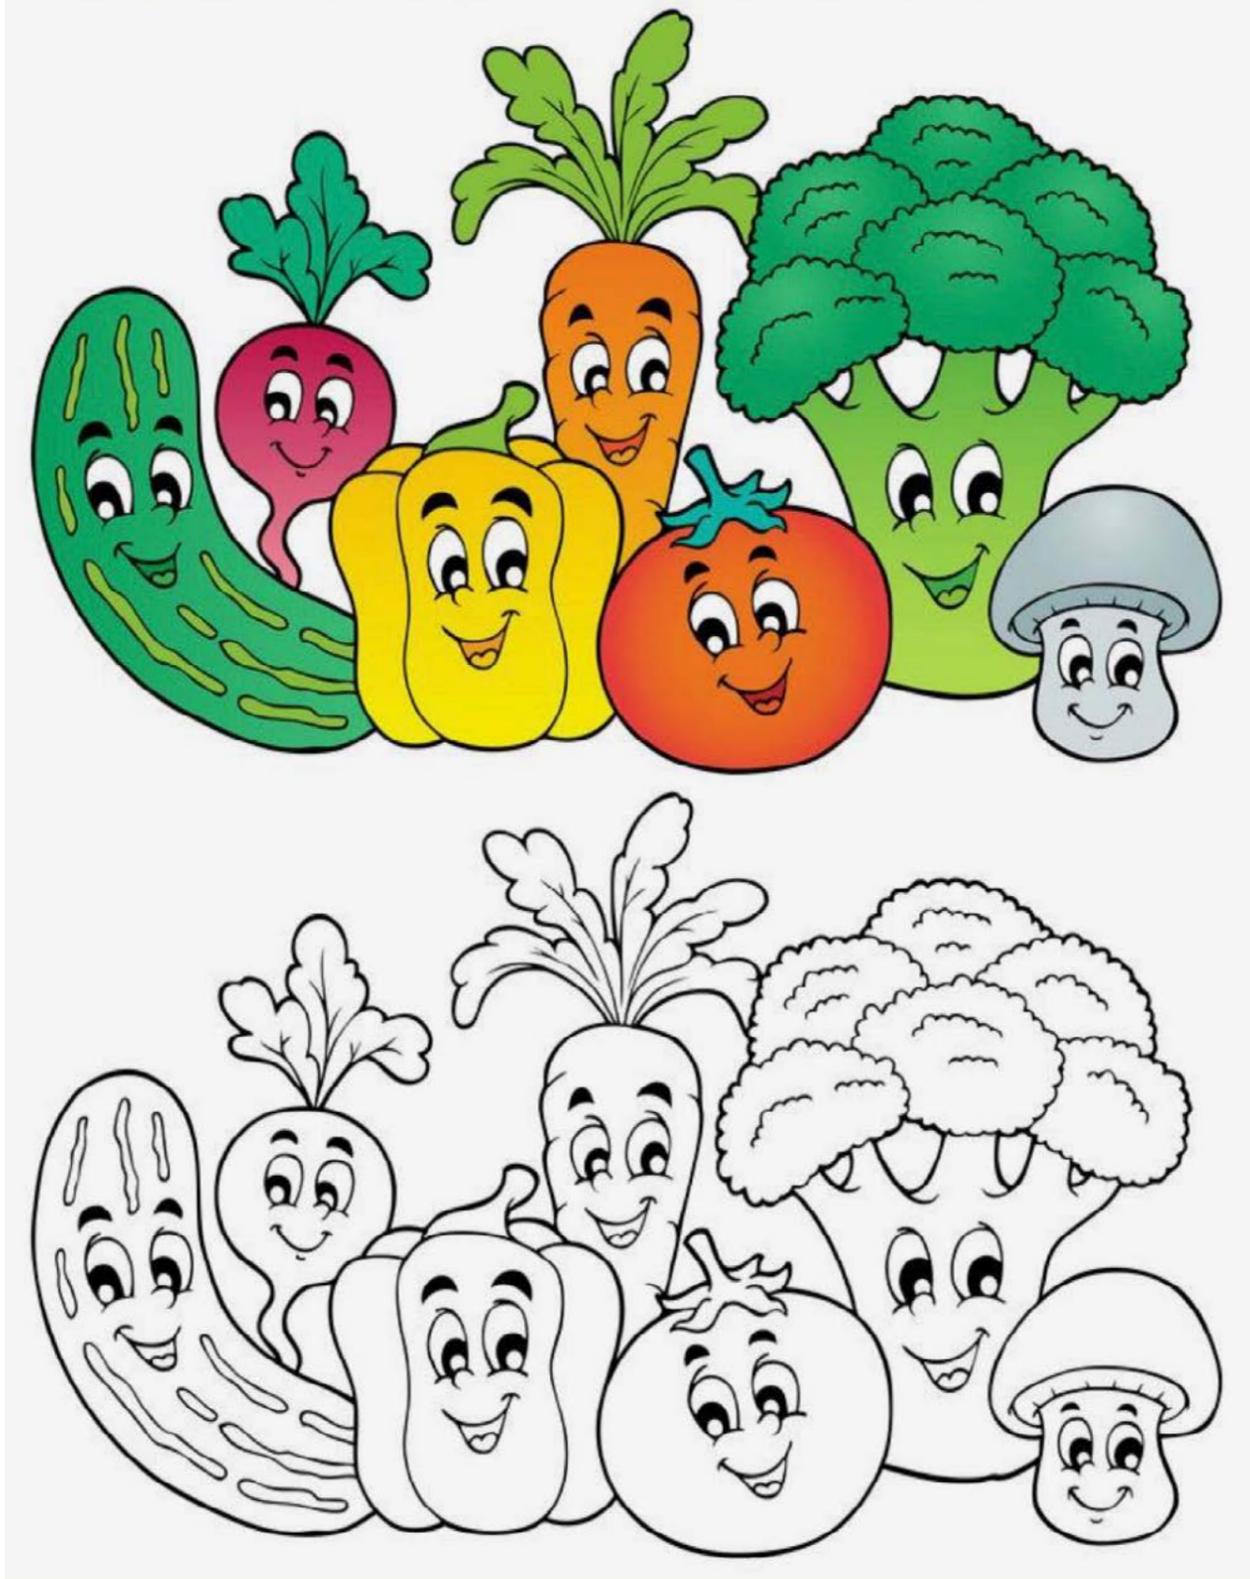

How Many?

Can you guess our names?

Coloring

## Science project

### Sink or Float!

#### Ingredients:

A pitcher of water or large glass of water

- An orange or lemon

#### The Recipe:

1) Drop an unpeeled orange in a pitcher of water.

Did it sink or float?

2) Peel it!

3) Drop it in the pitcher of water again.

Did it sink or float?

Food for Thought:

Before reading the section below, try one more thing.

Drop one of the peels in the water and see if it sinks or floats.

The peel floated, didn't it?

Because the peel is designed to protect the inside of the orange, its structure is different. Besides being tougher than the sweet interior, the peel also contains a lot of air. This makes the peel less dense or lighter than the inside of the orange. The peel is less dense than water or light enough to float, but the inside fruit is denser than water so it sinks. In fact, the peel is so light that if it is wrapped around the orange (an unpeeled orange), the peel will keep the orange from sinking.

## Art

All you need:

1: Scissors

2: Glue

3: Paper Straw

Instructions:

How to make your strawberry mask:

1: Cut out the strawberry mask.

2: Use a pen or the tip of the scissors to pierce the strawberry eye holes.

3: Cut out the eye holes.

4: Glue a paper straw onto the back of the strawberry mask, off to the side.

5: Your strawberry mask is finished.

### Alphabet

Elephant-Fil  
Fish-Balık  
Gumballs- Gumballs  
Hearts- kalpler

### Let's go to the farmers market

Fruits- Meyve  
Vegetables- Sebzeler  
Red pepper - Kırmızı biber  
Tomato- Domates  
Cucumber- Salatalık  
Carrot- Havuç  
Potato- Patates  
Turnip- şalgam  
Orange- Portakal  
Peach- Şeftali  
Apple- Elma  
Cherry- Kiraz  
Lemon- Limon  
Pear- Armut

### Let's Count

Banana- Muz  
Orange- Portakal  
Egg Plant- Patlıcan

### Can you guess our name?

Strawberry- çilek  
Blueberry- Yaban Mersini  
Grape- Üzüm  
Pomegranate-Nar  
Avocado- Avokado  
Onion- Soğan  
Maize (Corn) - Mısır  
Garlic- Sarımsak  
Celery-Kereviz

### Coloring

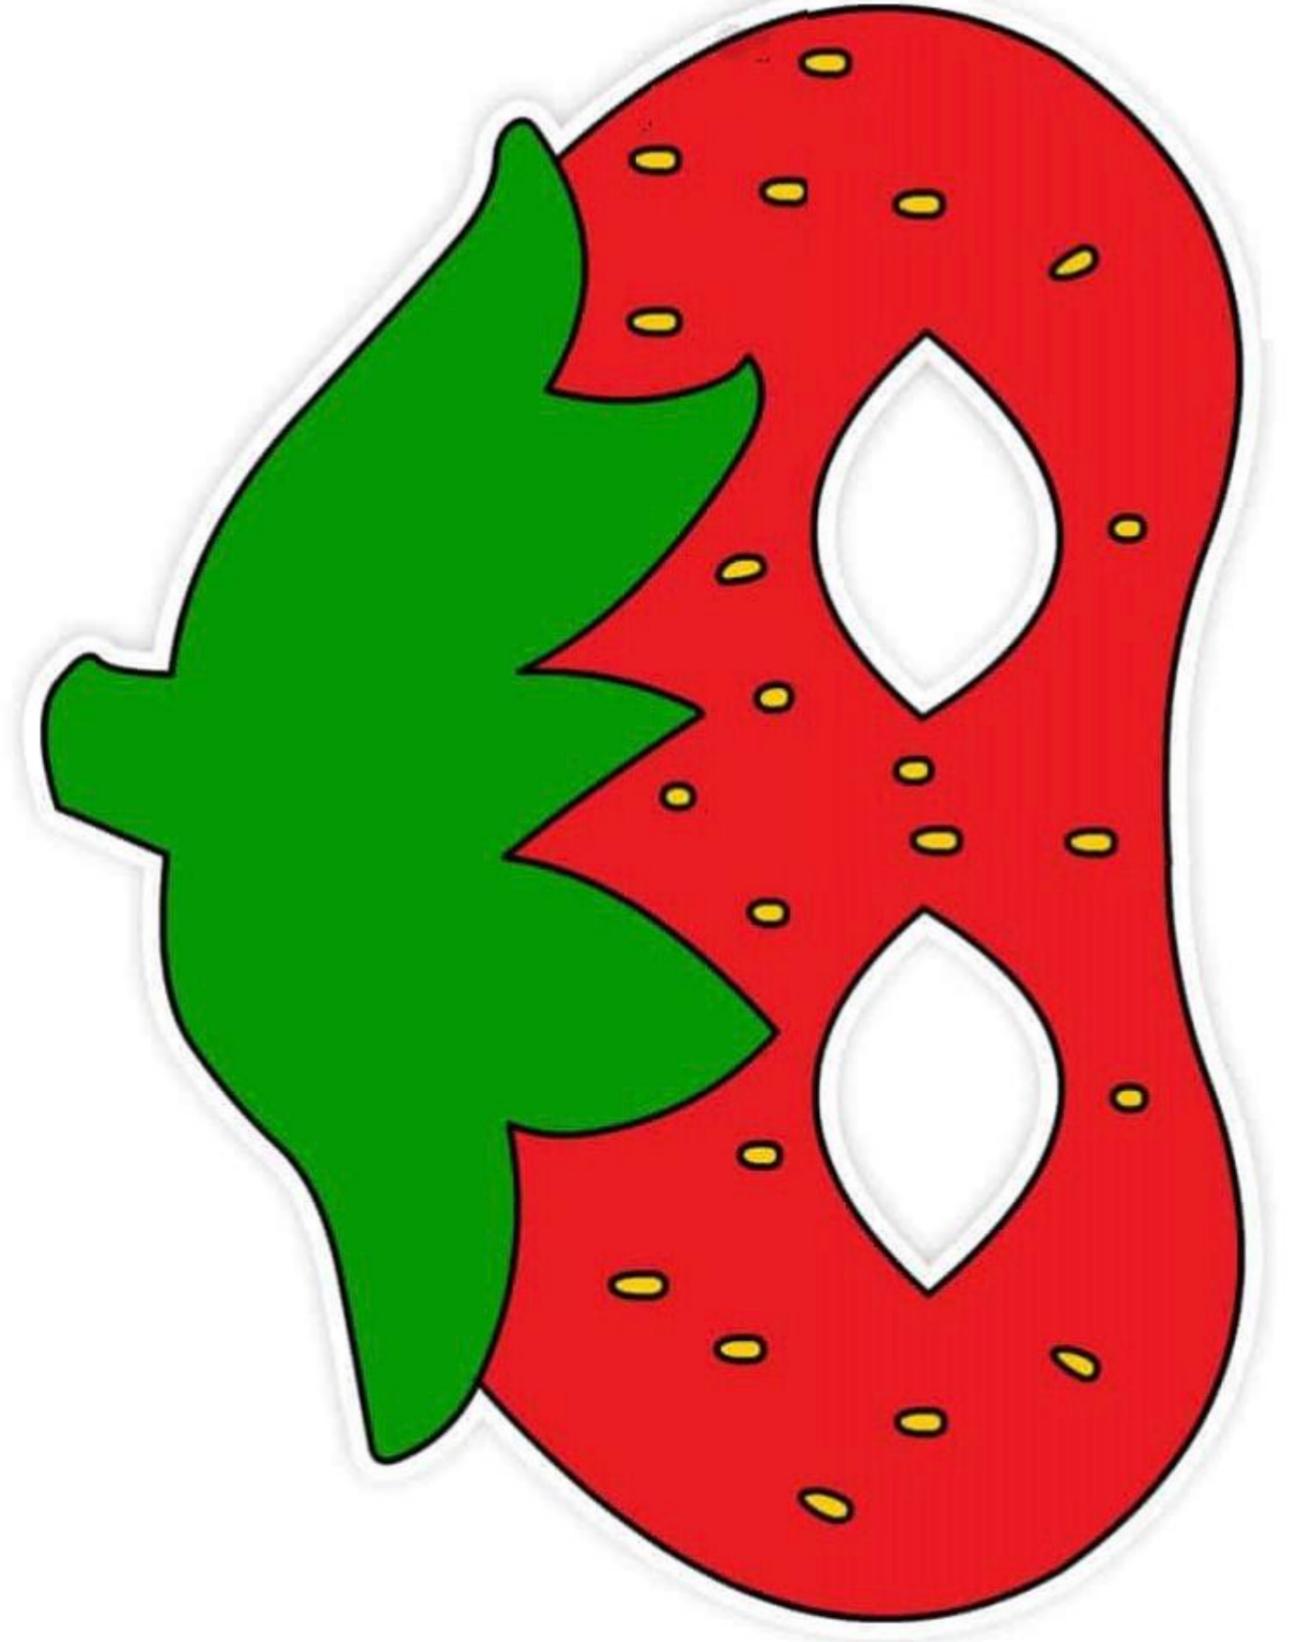

Mushroom- Mantar  
Watermelon- Karpuz  
Pineapple- Ananas  
Coconut- Hindistan cevizi  
Kiwi- kivi  
Melon- Kavun

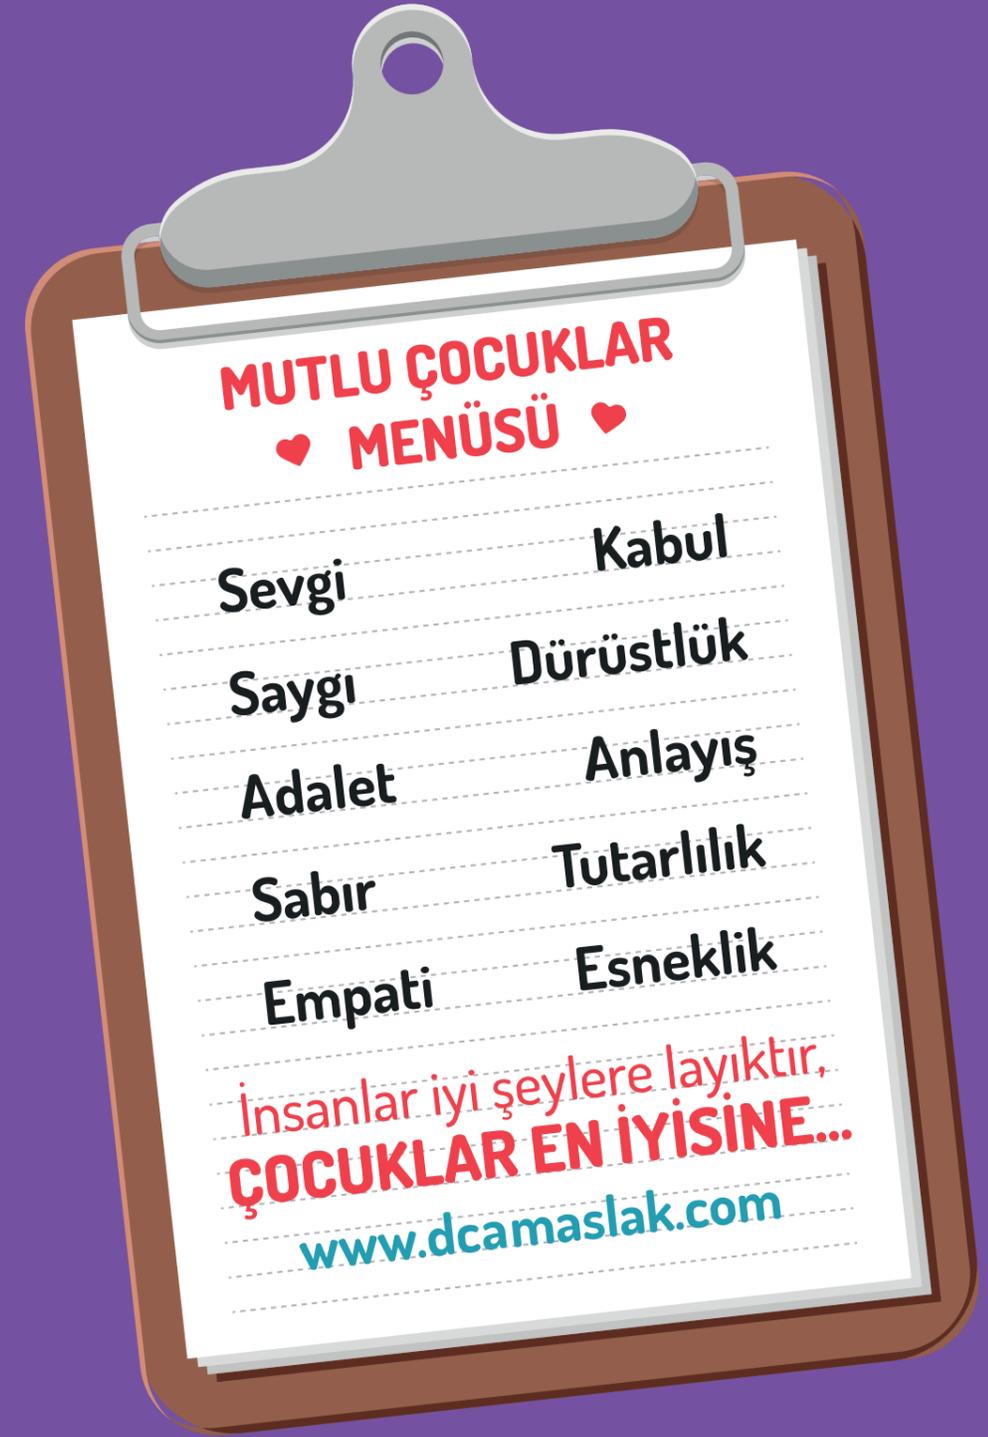

### Science Project

Sink- Lavabo  
Float- şamandıra

### Art

Scissors- Makas  
Glue- tutkal  
Paper Straw- Kağıt Hasır
