Dear Parents,

“We are born of love; Love is our mother and Mother is the name for God in the lips and hearts of little children...”

“When you look into your mother’s eyes, you know that is the purest love you can find on this earth, A mother is who can take the place of all others, but whose place no one else can take.”

Our dear mothers although it is not possible in this current situation to appreciate you as it should be, please accept our sincere congratulations.

So in this booklet for our lucky children who have mothers like you, we have prepared activities suitable for Mother’s Day to put a smile on your face.

So in the first we put some activity which are related to MOTHERS DAY, which you can keep forever and then we talk about traffic and first aid.

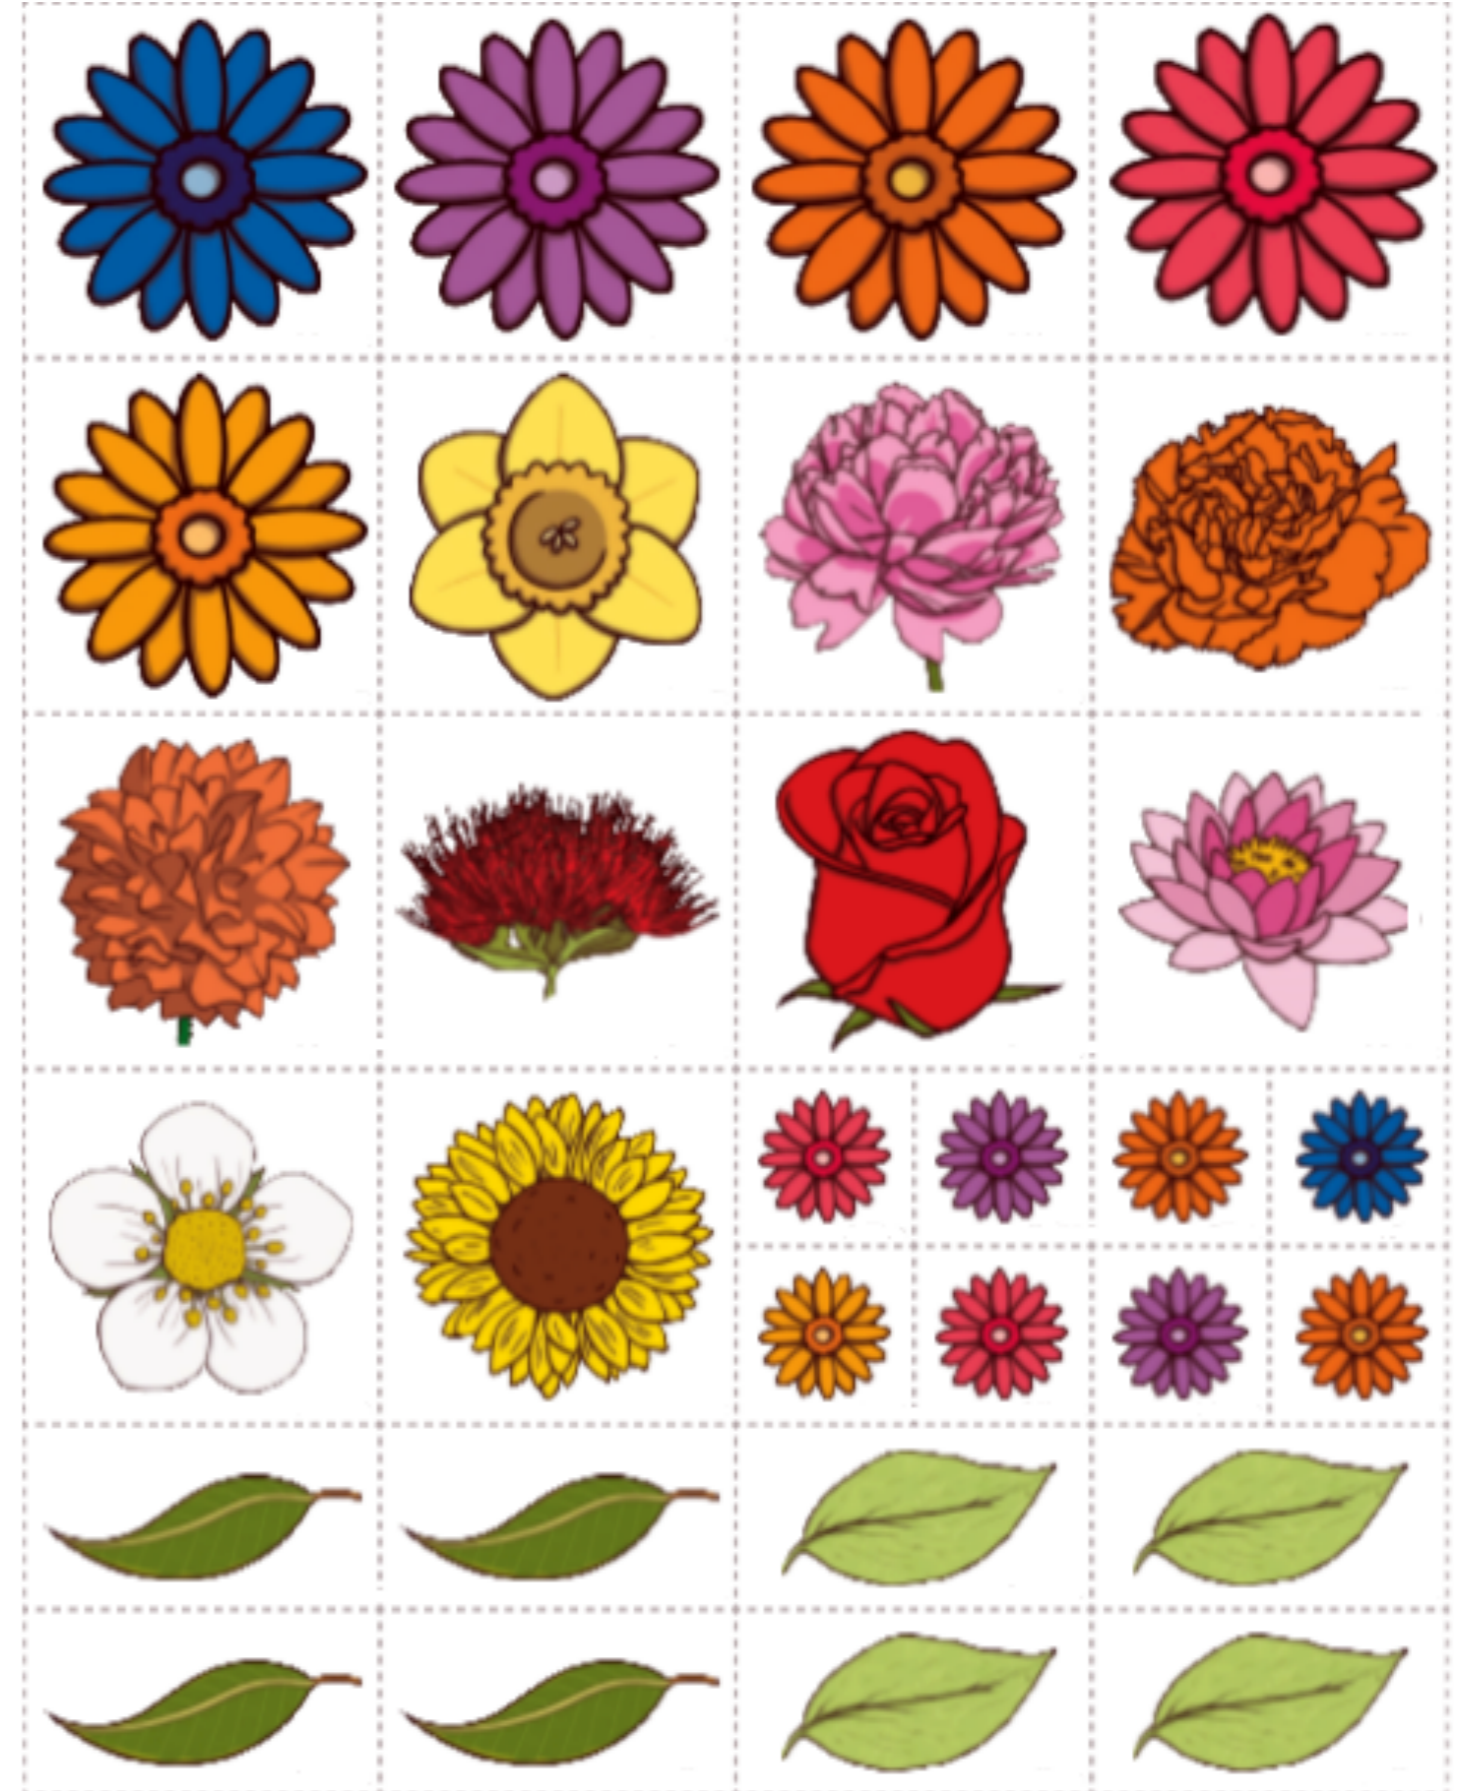

We hope your children enjoy it like always.

Have a nice week.

DCA Foreigner English Department

Make a Bouquet of Flowers!

(Cut and stick your favorite flowers to make a lovely bouquet.)

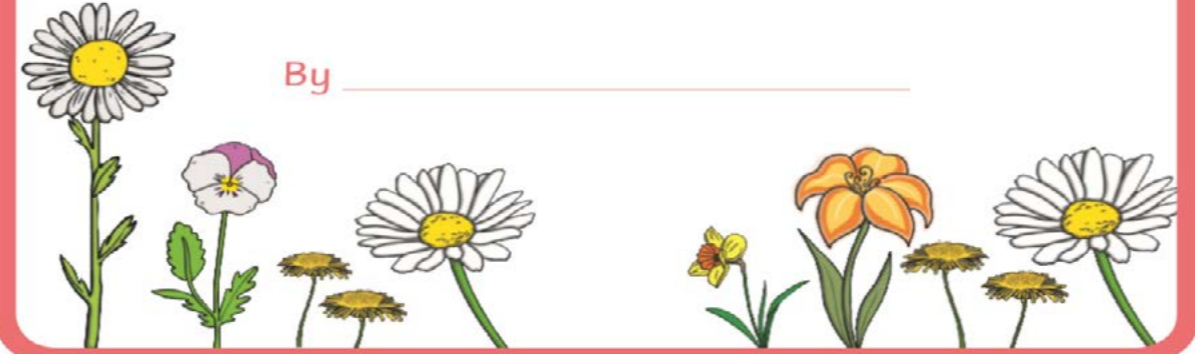

Now write your mother's name in these cards and give one of this card to her with one gift that we are making together.

Best Mum in the World!

Best Mummy in the World!

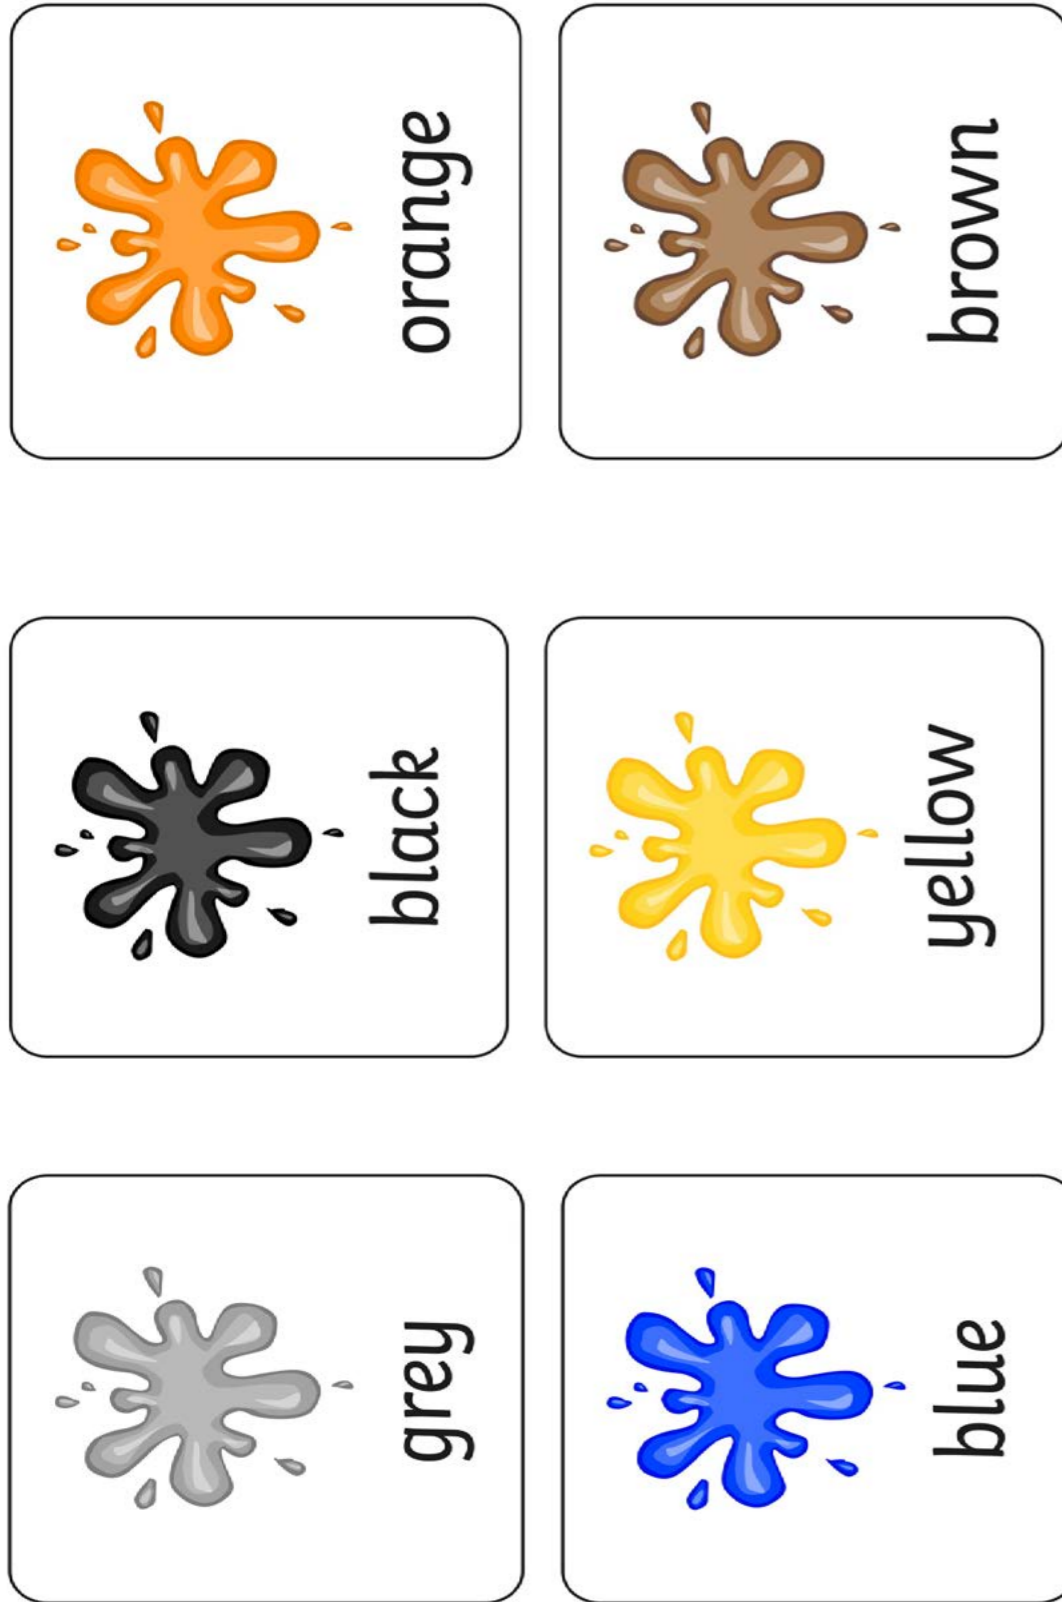

Awarded to _____

By _____

Now let's review the colors together because our next activity is related to colors, do you remember all the colors?

Good job, now cut all the squares and ask each other: “what color is this?”

If you answer all correctly, you can start this activity.

Now let's play these songs and start to cut these amazing pictures then attach them together to make a beautiful: "Happy Mother's Day" poster.

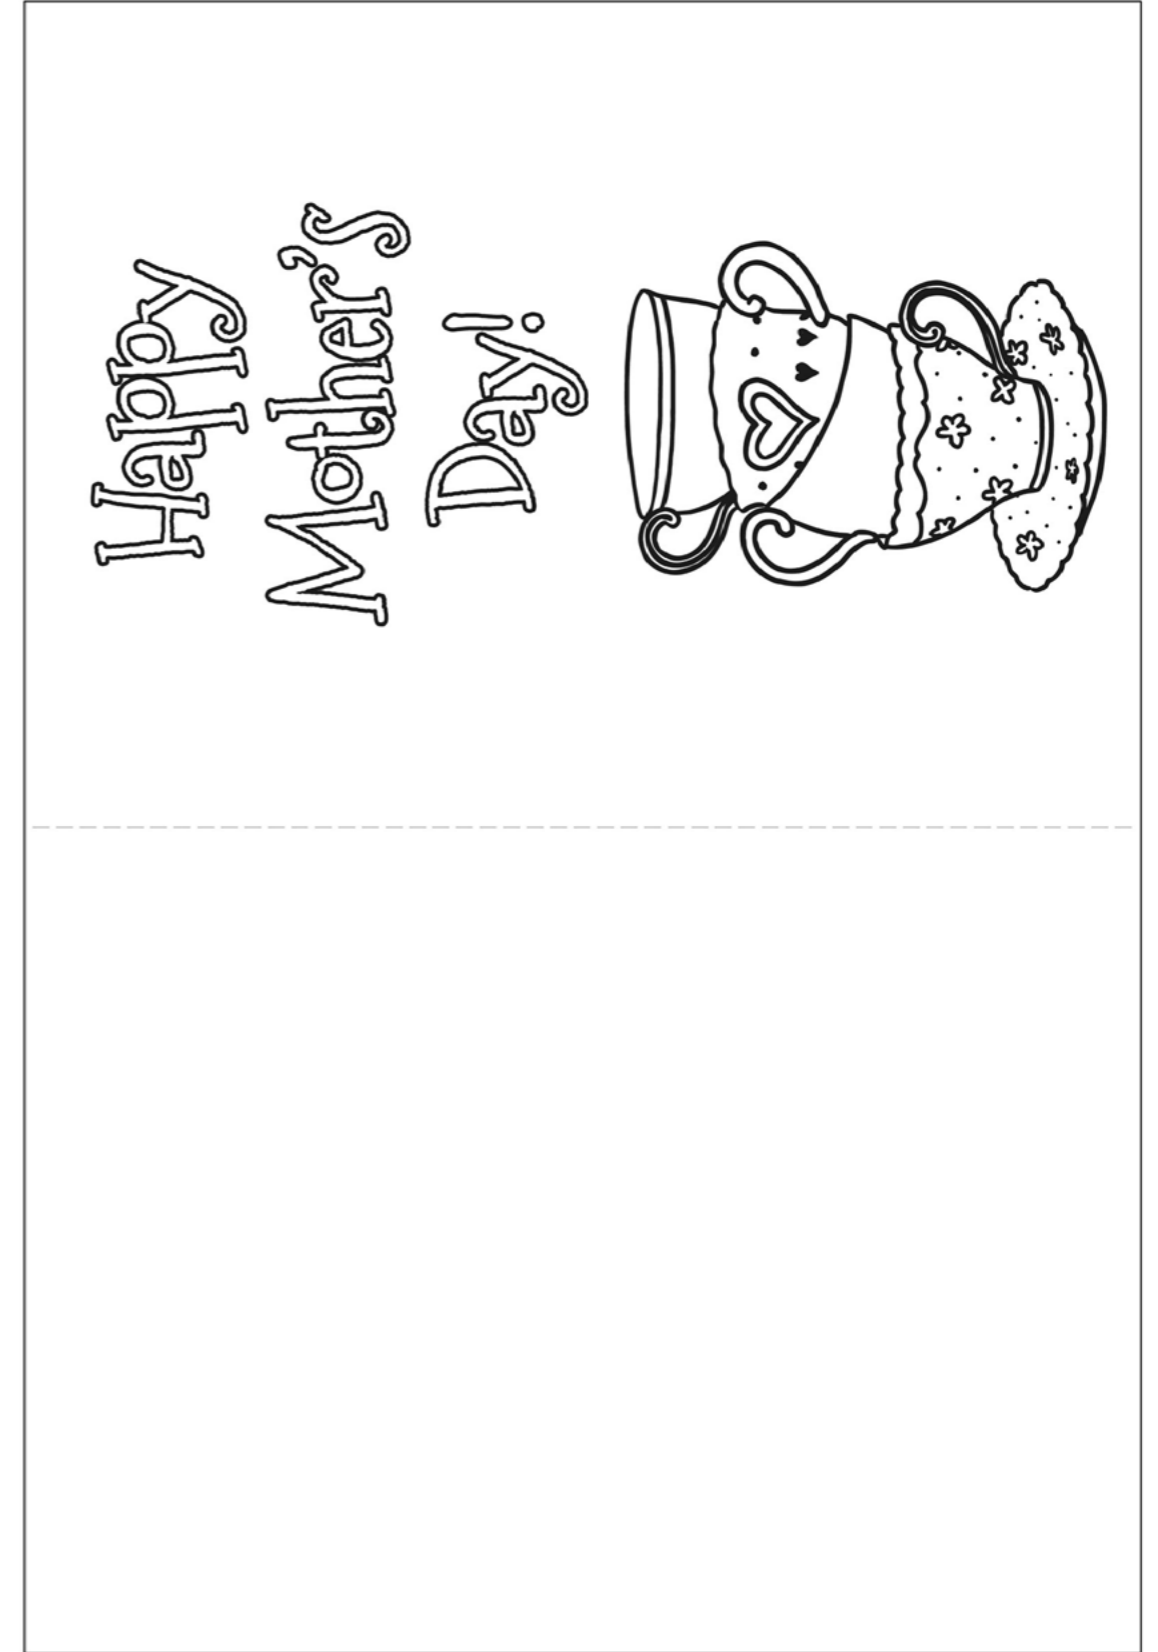

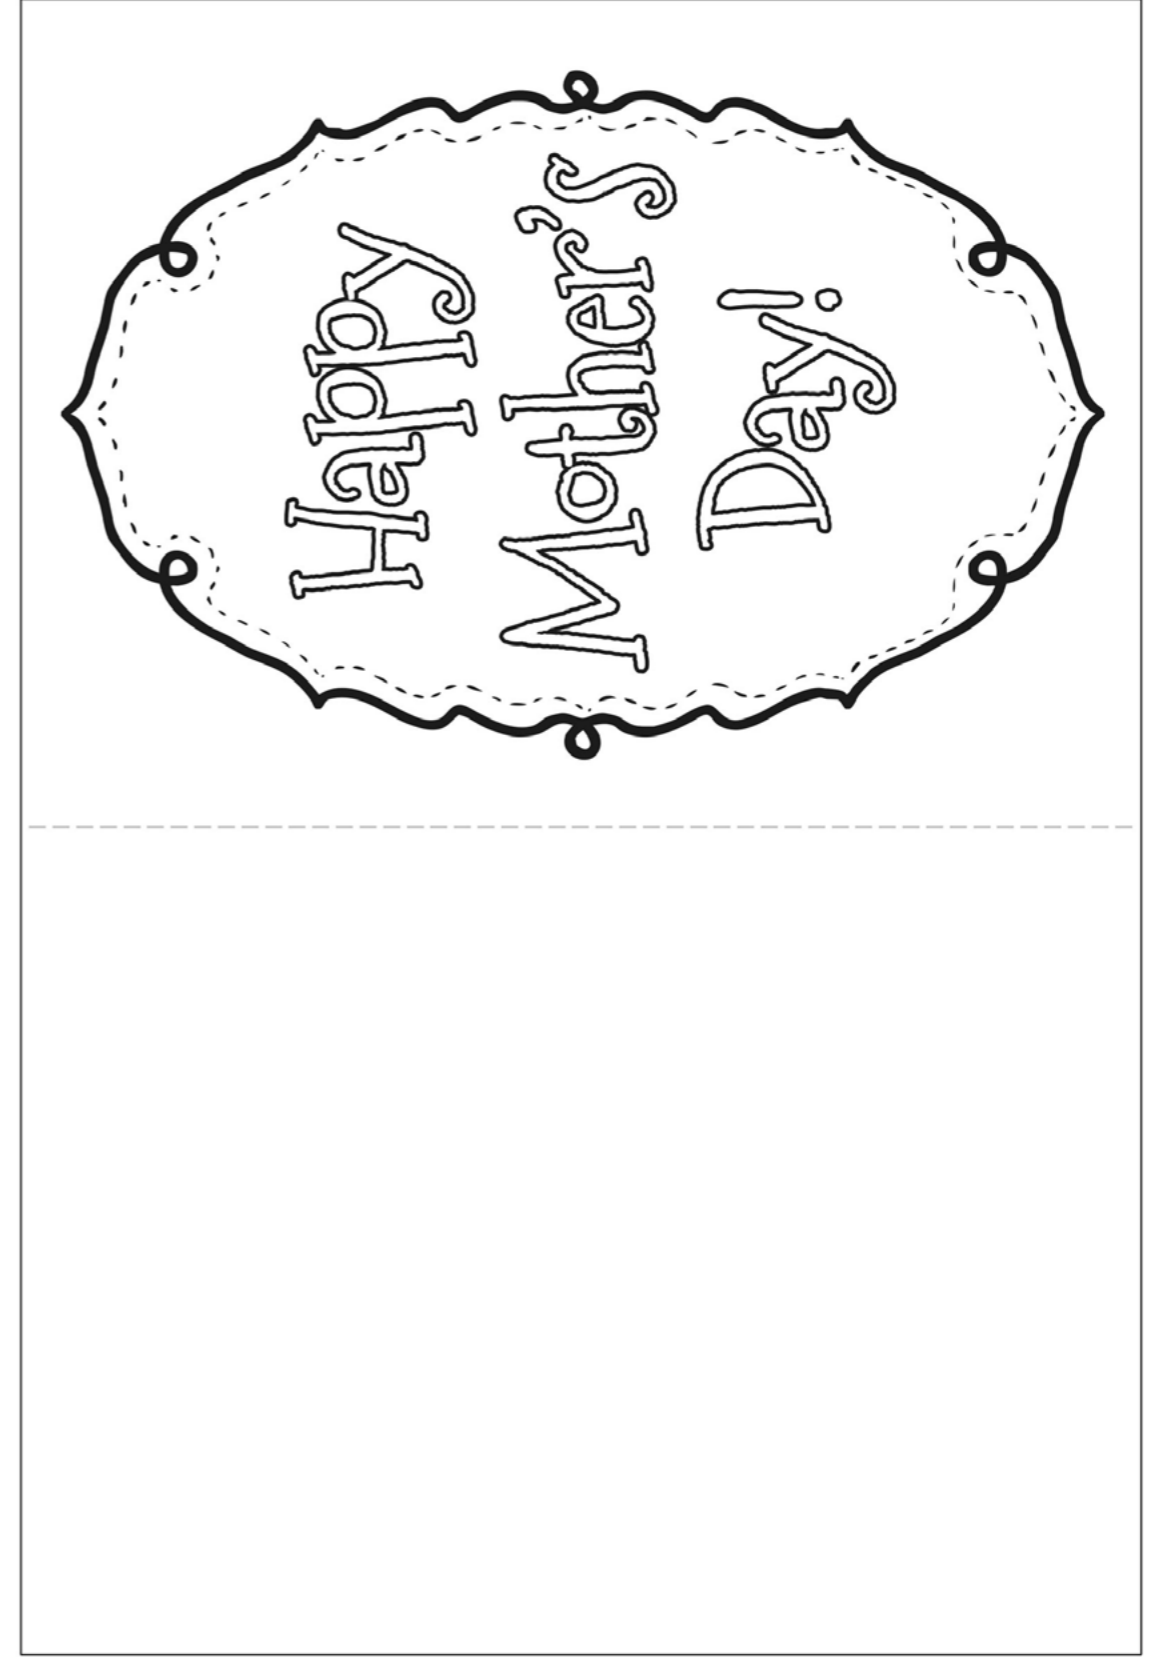

Now let's have a little fun and make a beautiful card .

First color them with your favorite colors, I made an empty page for you which you can draw something special for your mommy or write your mom's name. then cut your card and fold up the paper from the specific line.
your mom's card is ready... she will be so happy :D

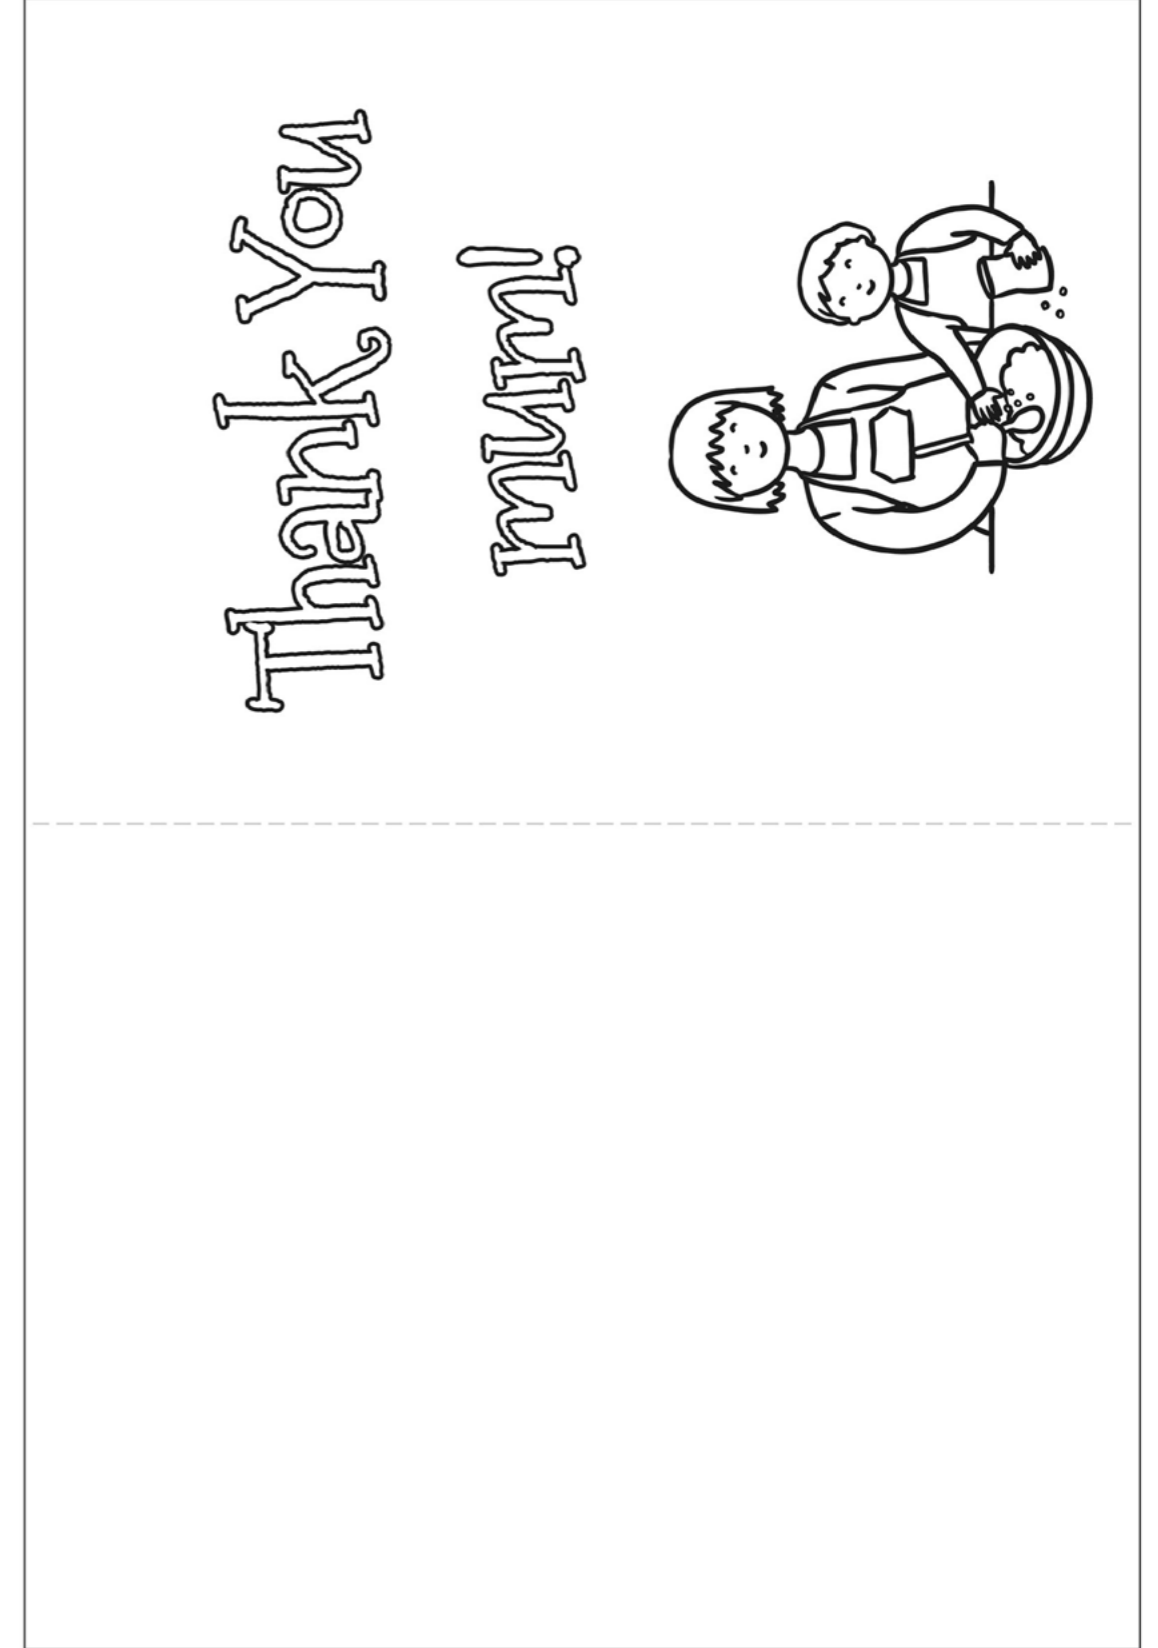

what is your opinion about making a special cake, for your mom ?!

Then you can present your cake with this card ?!

wow! It's amazing, so let's get started.

Butterfly Cakes

this butterfly cakes recipe is so tasty and easy to make.

Ingredients

- **250g** Butter (unsalted) (softened)
- **250g** Unrefined golden caster sugar
- **4** Egg(s) (free range)
- **250g** Self-raising white flour
- **185ml** Milk (whole)

For the icing

- **140g** Butter (unsalted)
- **280g** Icing sugar
- **2 tbsp** Milk (whole)

Method

1. For the cakes, preheat the oven to 180°C fan (160°C, 350°F, gas 4) Line a 12-hole muffin tray with paper cases.
2. Place the butter and sugar in a bowl and beat until pale and creamy. Add the eggs one at a time, beating until well combined. Fold the flour into the mixture and add the milk.
3. Divide the mixture between the cases and bake for 20 - 25 minutes. Remove from the oven and cool on a wire rack.
4. For the butter icing beat the butter in a large bowl until soft. Add half of the icing sugar and beat until smooth.
5. Add the remaining icing sugar and one tablespoon of the milk and beat the mixture until creamy and smooth. Beat in the milk if necessary, to loosen the mixture.
6. Using a small pointed knife cut a circle about 2.5cm width out of the cake leaving a cavity in the center. Cut the round in half and set aside. Now fill the center of each cake with the buttercream and return the two pieces of cake to sit on top like butterfly wings. Dust with icing sugar to serve.

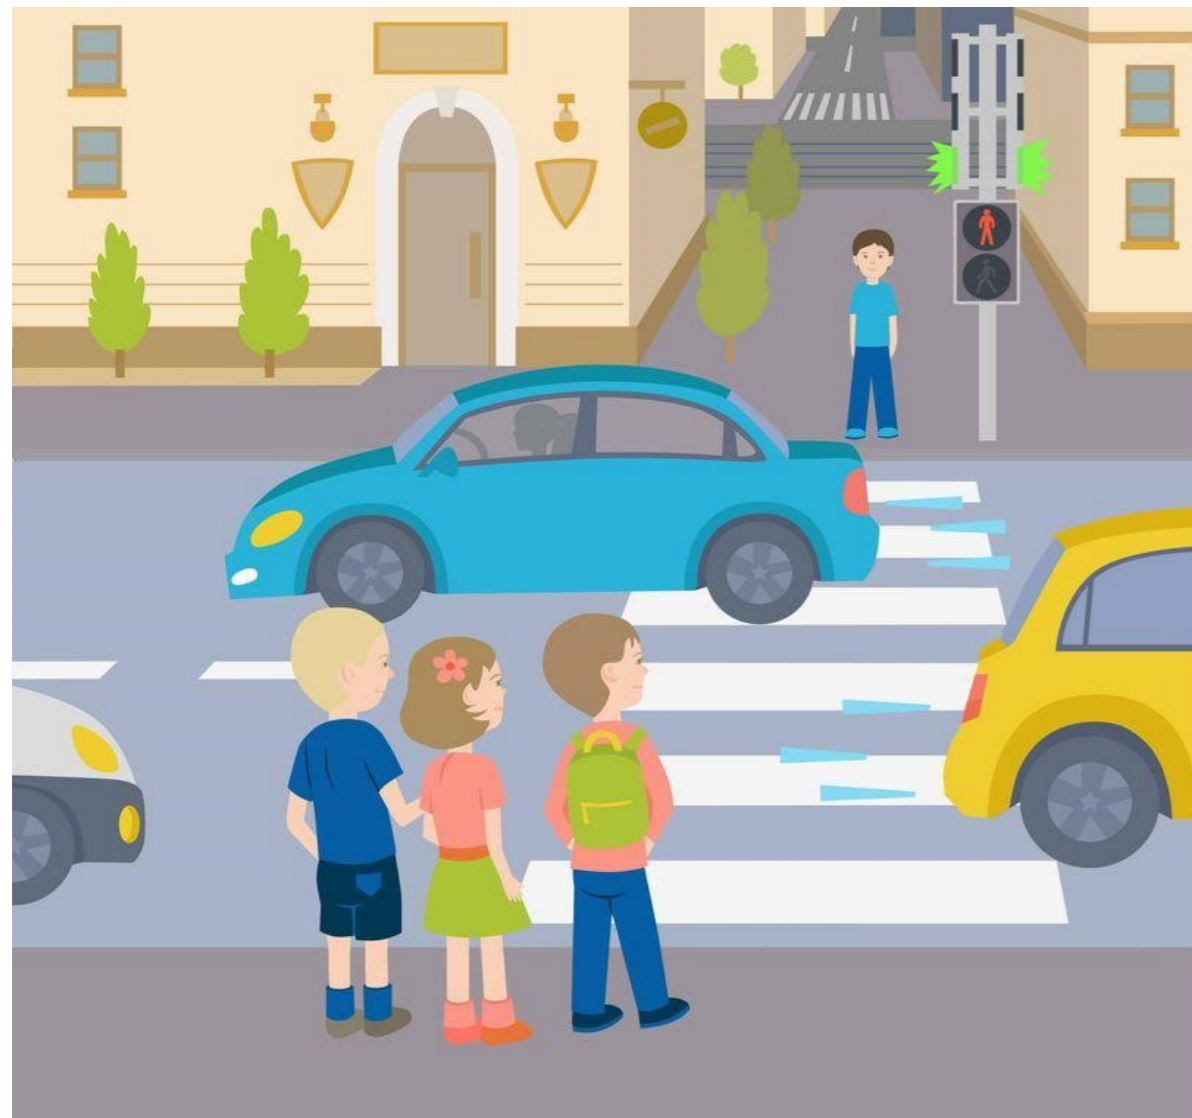

**** enjoy your meal ****

After all the fun and entertainment, now is the time to learn new things. This week we want to learn about traffic and first aid.

Are you ready ?!

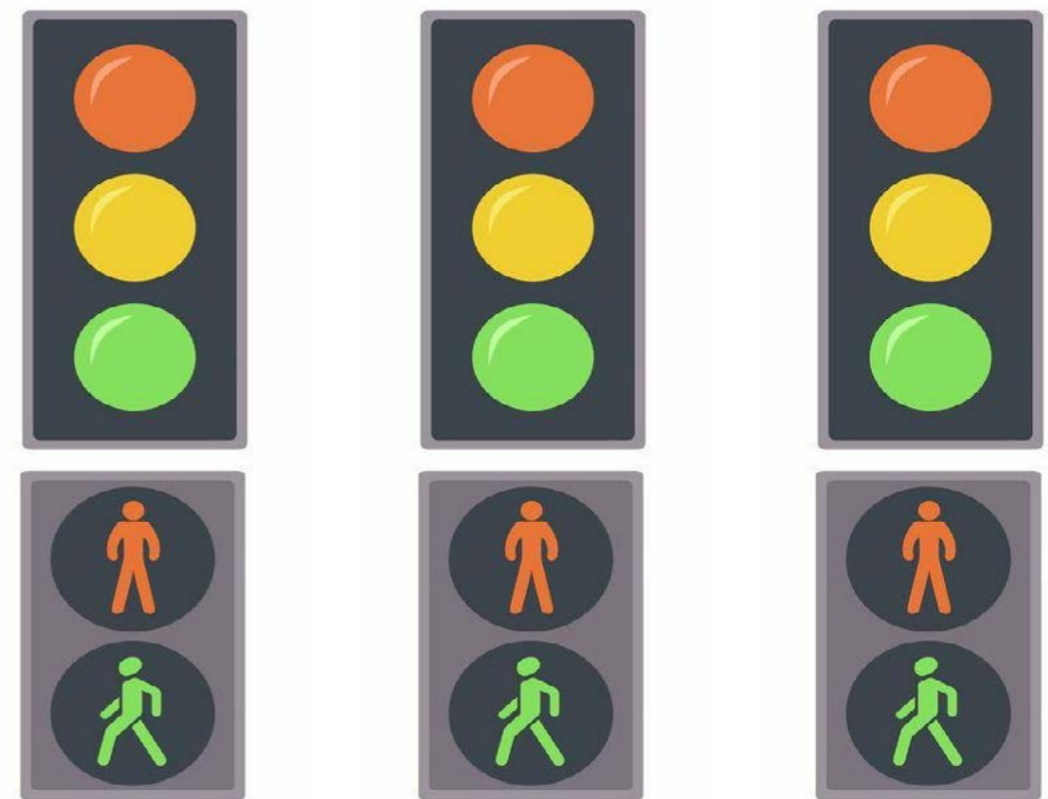

Lets start whit traffic.

What can you see when you look at the street?!

Yes... we can see Cars, People, Lines, and Signs.

But what are these Signs for?

*** Traffic Light ***

red

yellow

green

stop

Stop

Be careful

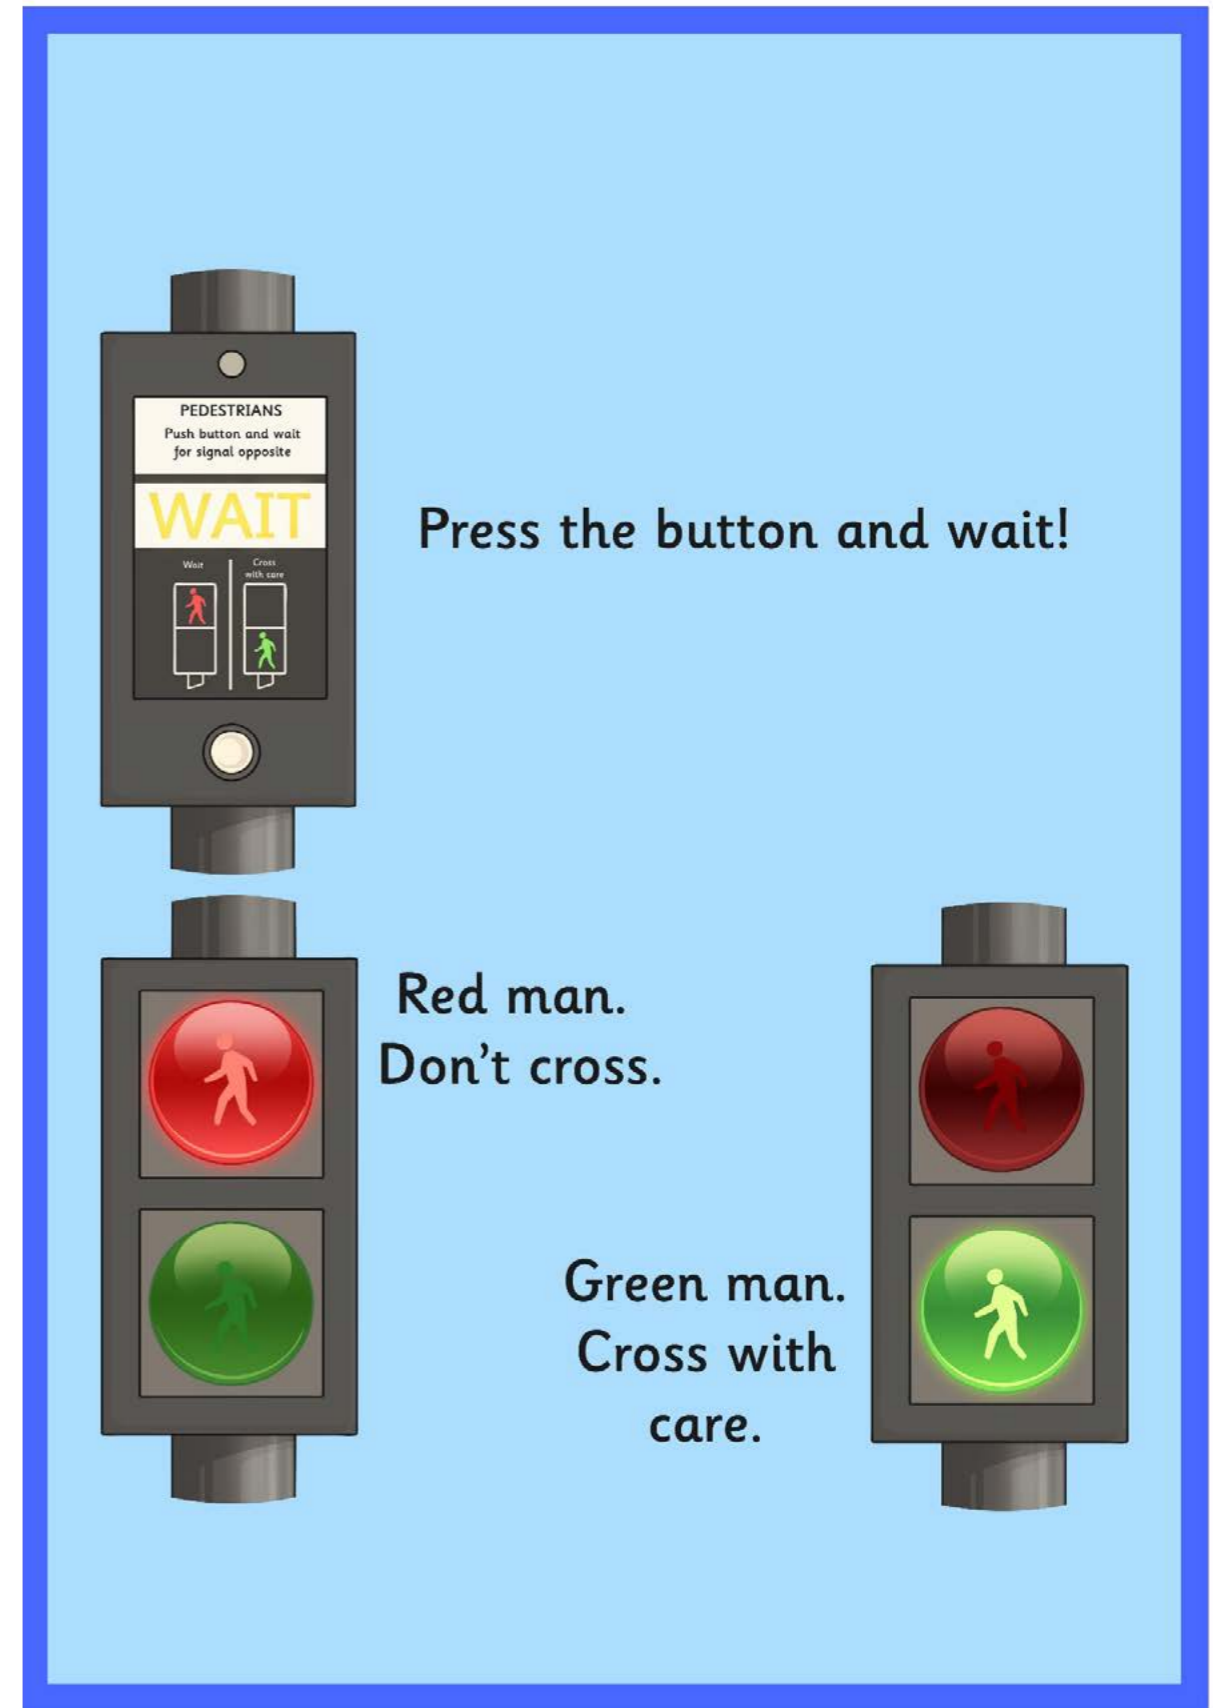

Slow

Go

Fast

what should we do for crossing the street?!

Zebra Crossings

Wait before you cross.
Look and **listen** all the time.
Only cross when all the traffic
has **stopped** or there is **no**
traffic at all.

Use your
eyes and ears
to see any approaching vehicles.

Wait

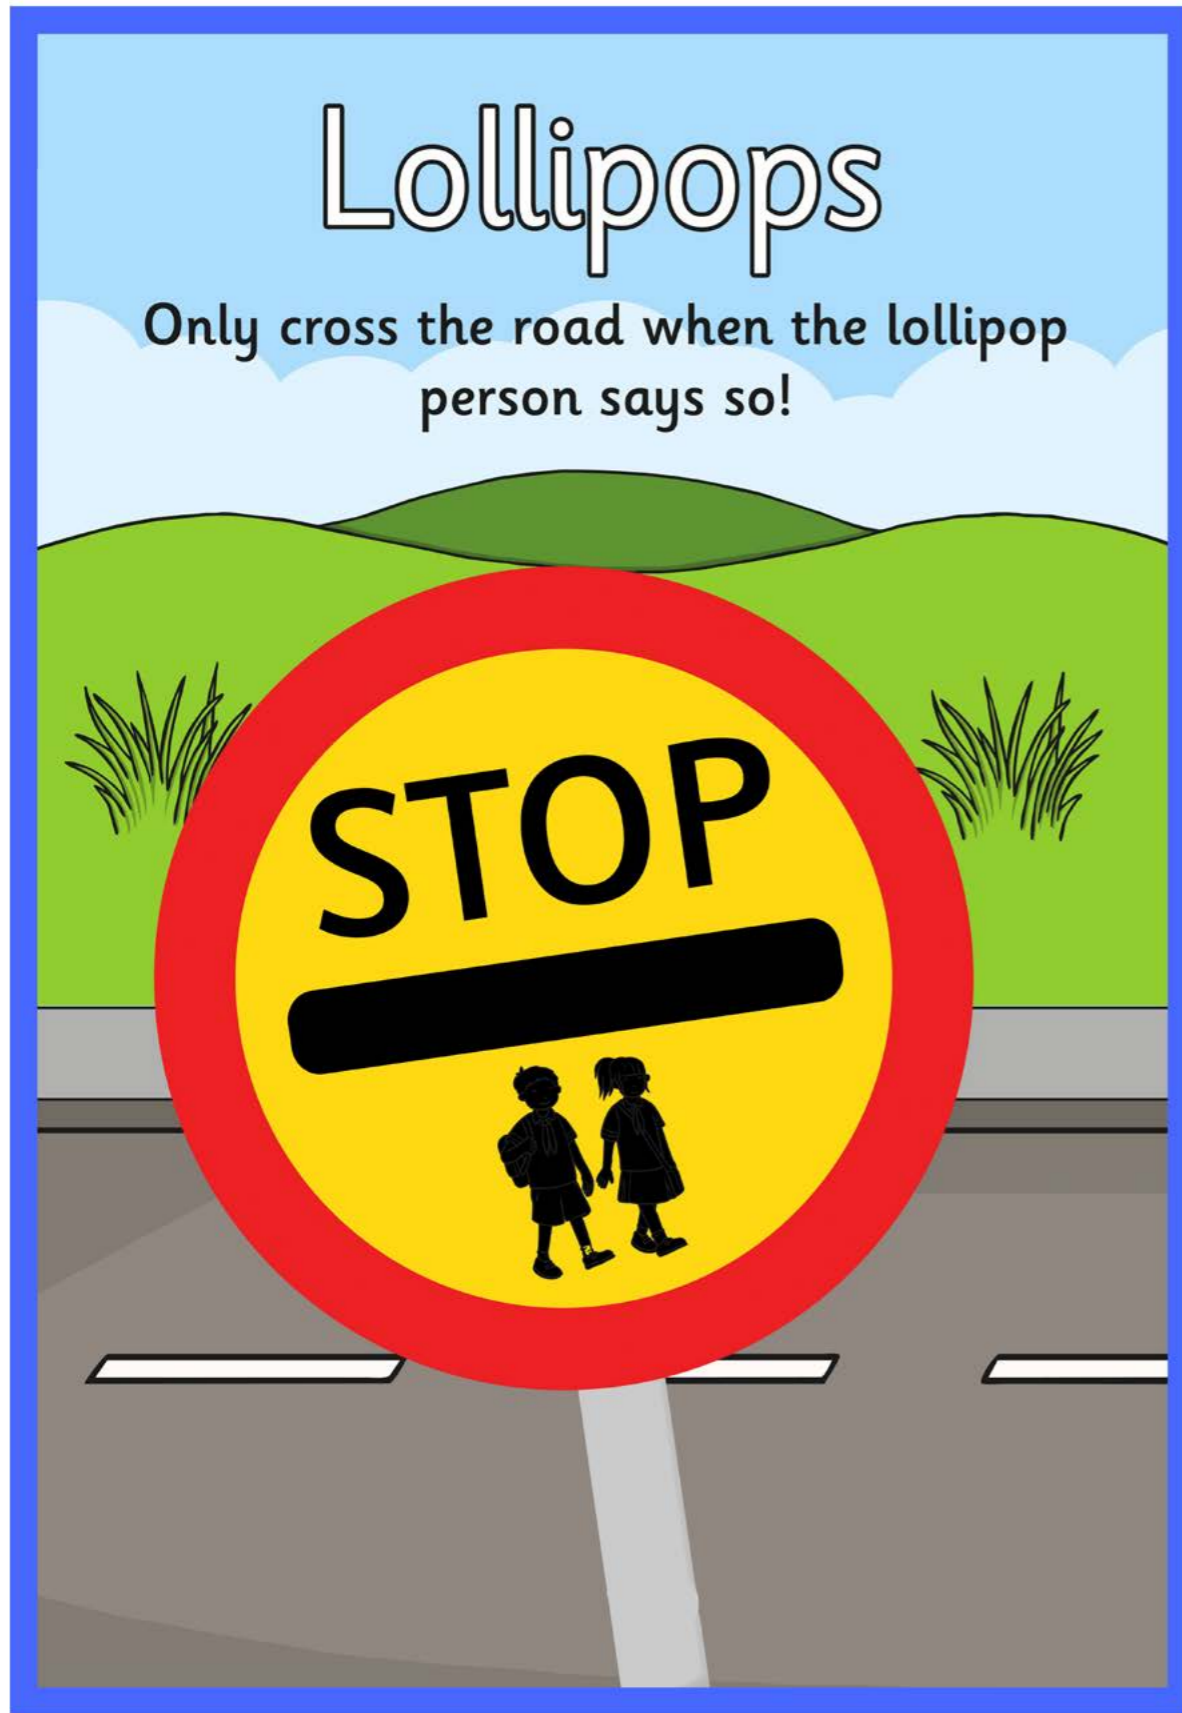

until any vehicles have passed.

Cross

the road.
Keep looking and listening.

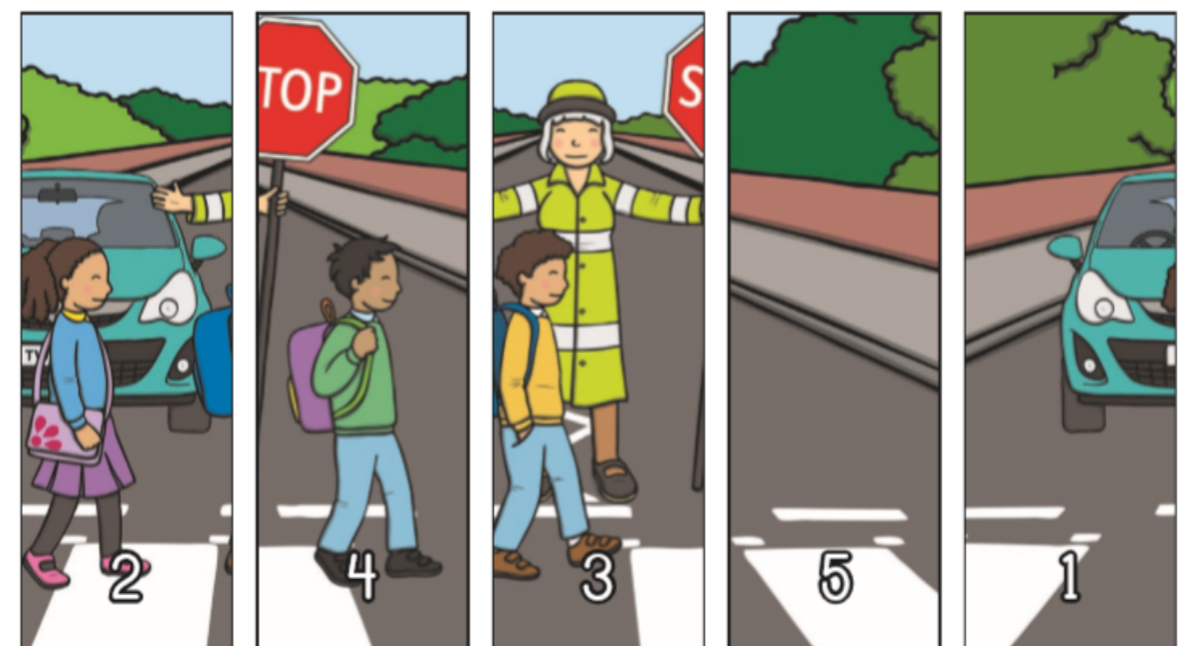

Street Safety Number Sequencing Puzzle

Cut and paste the number tiles in the correct order.

1	2	3	4	5
---	---	---	---	---

Come to learn some more signs

No Running

Give way

Danger! Children Working

Caution! Children Working

Bus Stop

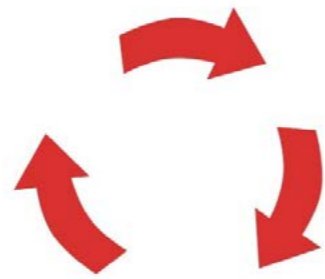

Taxi

Junction

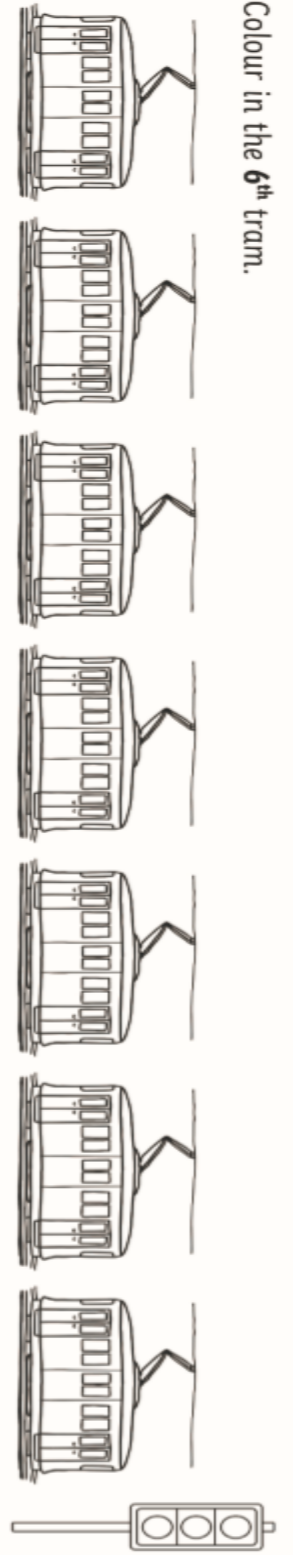

Roundabout

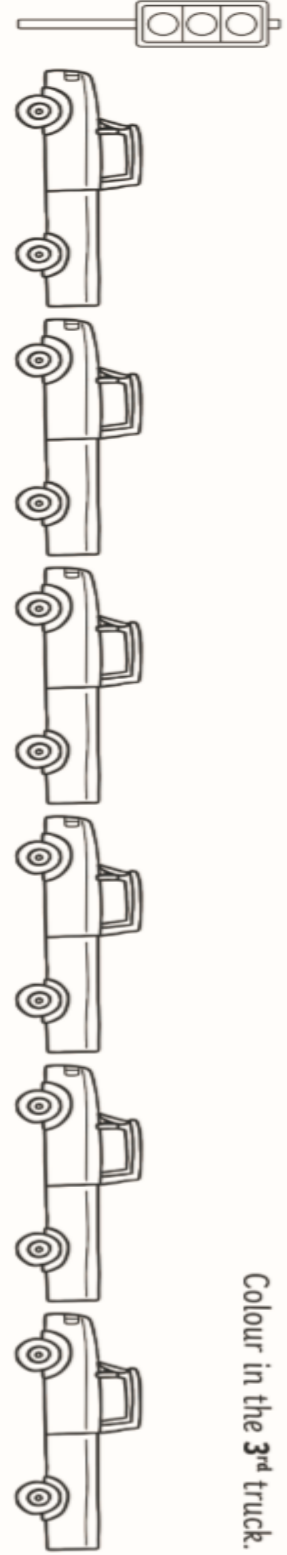

*** Now it is a math time ***

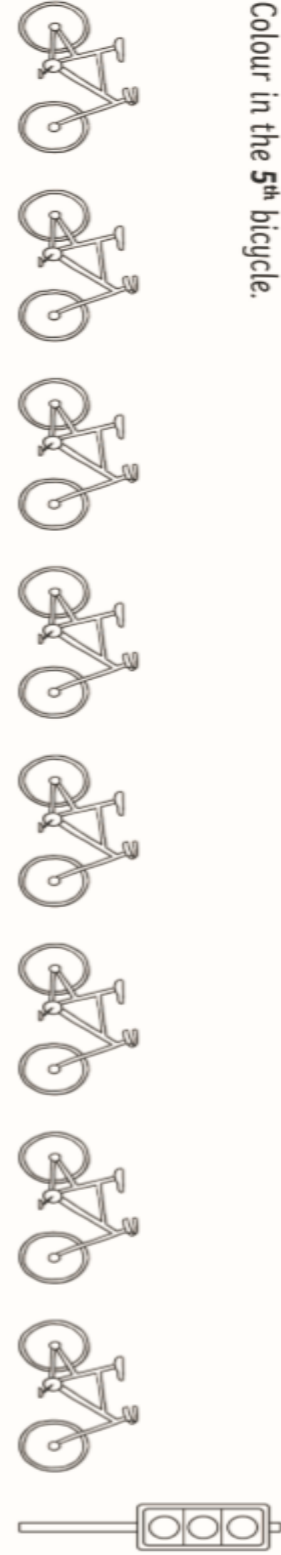

Colour in the 6th tram.

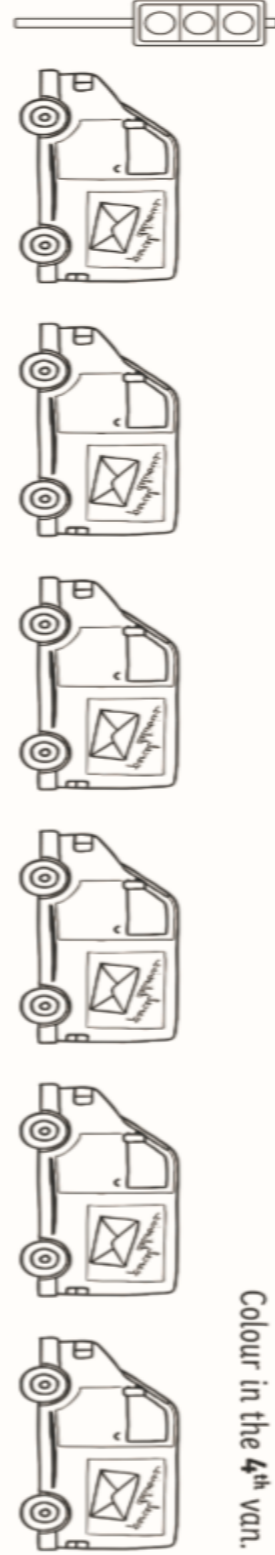

Colour in the 3rd truck.

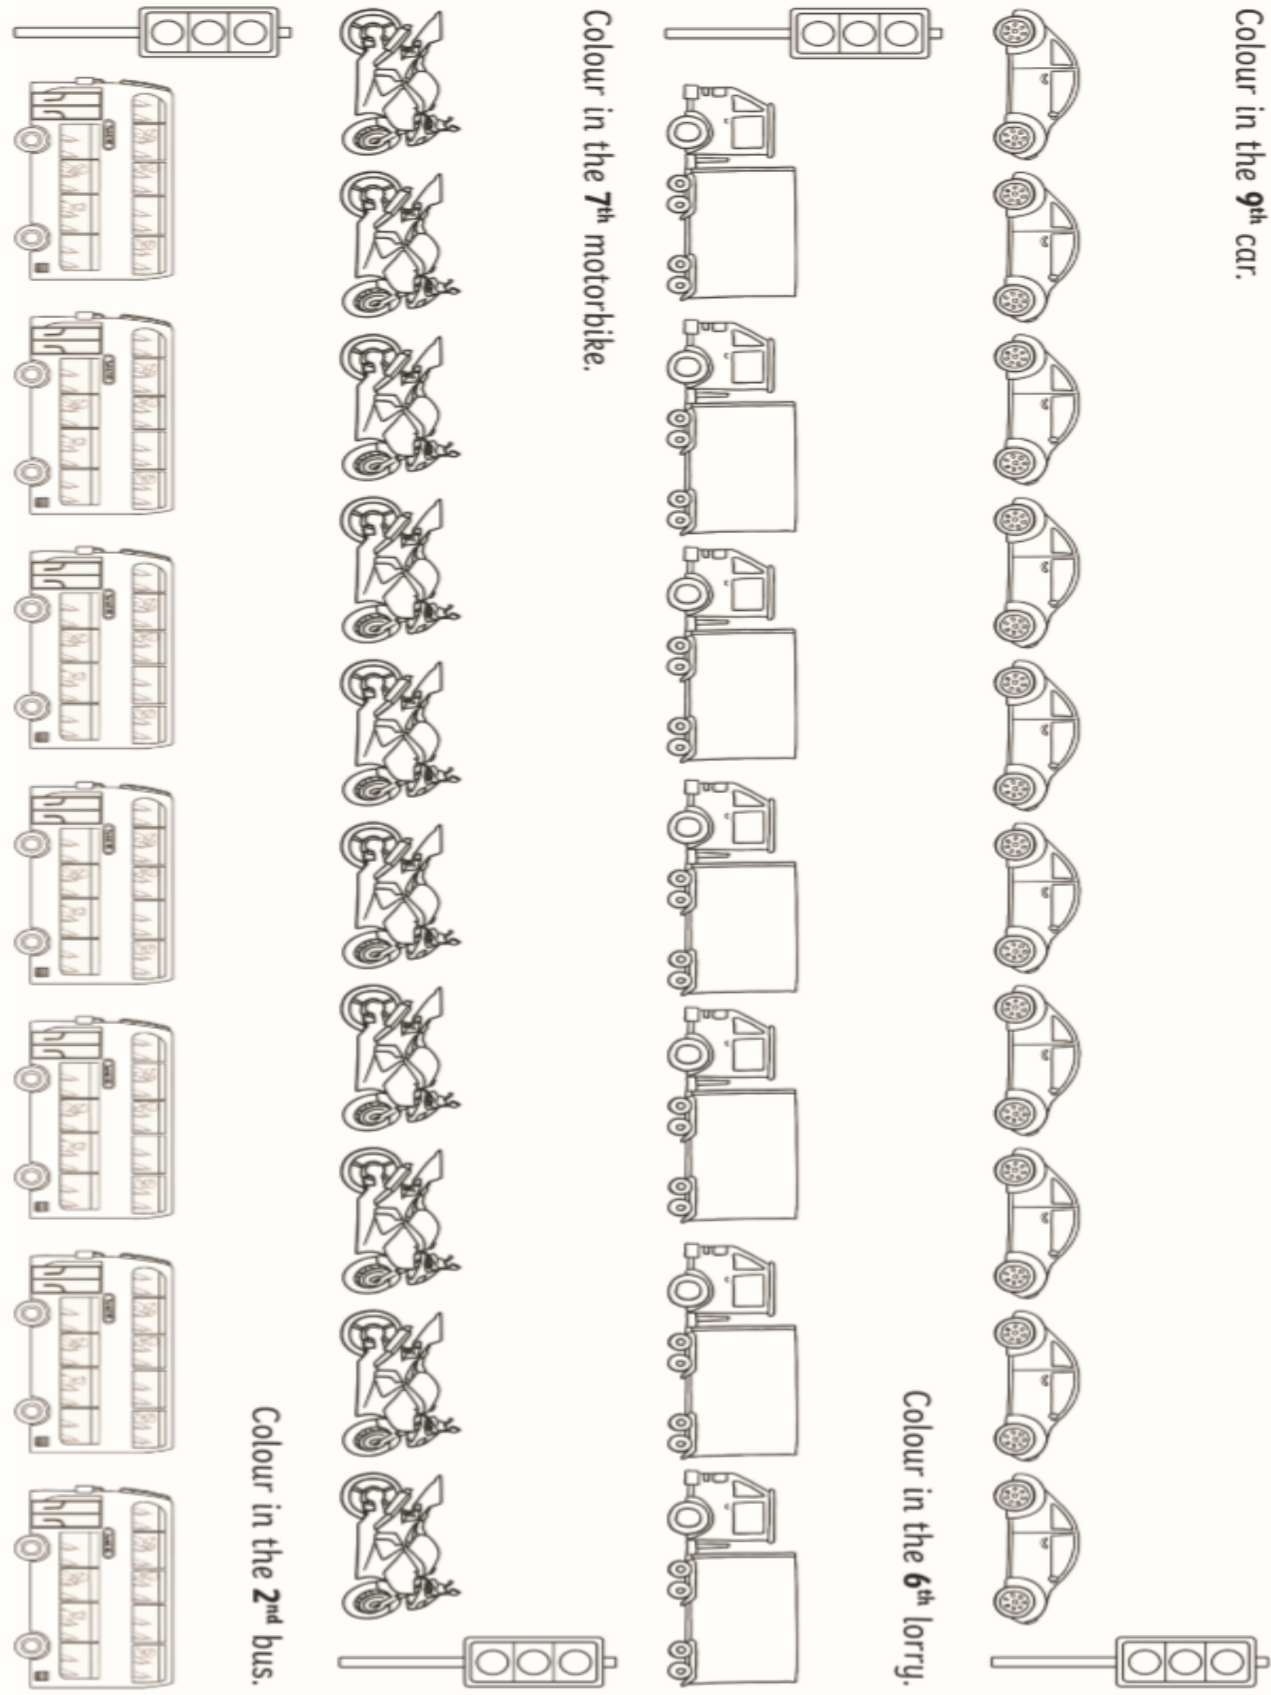

Colour in the 5th bicycle.

Colour in the 4th van.

Now we have learned the signs of traffic and learned how to cross the street, but if anyone doesn't follow the rules, and making an accident what should we need?

Yees... we will need a first aid box!

But what is the first aid kit ?!

A first aid kit is a collection of supplies and equipment.

*** let's Make a First Aid Kit with your parents ***

Part 1 Designing the Kit

Decide on the right size for the kit

Choose the appropriate container material. Make sure the container can be locked. Label the box as a children's first-aid kit and Affix emergency numbers to the kit.

Part 2 Stocking the Kit

Create a checklist of item to include in the kit. Include a variety of bandages

Add basic medical tools.

Include medications depending on your child's age

Part 3 Teaching Your Child About the Kit

Show your child where the kit is located.

Go over each item in the kit with your child.

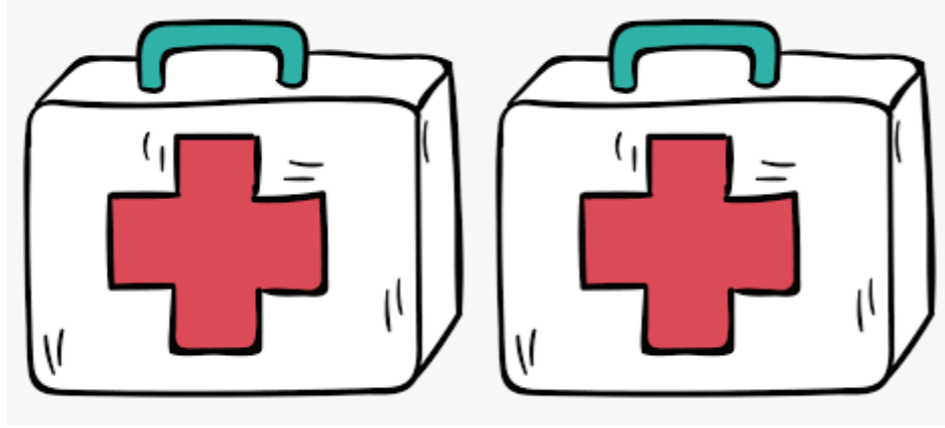

Include a pictogram for each item in the kit and practice with your child.

Update the kit after each use.

Now you have a first-aid kit.

Take care of yourself

And please don't forget to take a photo of your **Booklet** activities and send it to us.

We will be surprised and happy to see your talents. You can also share your beautiful photos and handicrafts with **#DCAwearetogether** on your social media pages.
