Science

Make a Cloud Form in a Jar

Supplies Needed

Glass Jar with a Lid (we used a pint mason jar)

1 cup Hot Boiling Water

Blue Food Coloring (optional)

Aerosol Hairspray

3-5 cubes of Ice

Experiment Instructions

Step 1 – Pour 1 cup of hot boiling water into a glass jar.

Step 2 – Quickly spray hairspray into the jar

Step 3 – Immediately put the lid onto the jar.

Step 4 – Place a 3-5 pieces of ice on top of the lid of the jar.

Step 5 – Watch the top of the jar carefully and you will see a cloud begin to form.

Step 6 – After observing the cloud in the jar, remove the lid and watch the cloud move out of the jar.

ART

Frying Pan

What you'll need:

Black paper plates

Black plastic spoons

Hot glue

How to Make It

1. Hot glue a black plastic spoon to the bottom of a black paper plate. Let cool completely before using. Paper plate frying pans make for great dessert plates or party props!

Notes:

All hot gluing should be done by an adult.
